Baseball protective gear generally includes caps, face guards, chest guards and leg guards. The baseball game stipulates that players must wear baseball helmets when hitting the ball. Players other than professional baseball must wear helmets with double ear protection when hitting the ball; receivers must wear helmets, face shields, chest protectors and leg guards when they are on defense. Batters and runners in amateur baseball should wear helmets, and batters and runners must wear helmets with double ear protection. Caddies also wear helmets.

With the improvement of economic development level, consumers' health awareness around the world has increased, and their exercise and fitness habits have gradually strengthened. Statistics from CICC Enterprise Trust show that in 2020, the global sports industry market size will be close to US$388.28 billion, and its size will reach US$440.77 billion in 2021. The global sports industry has experienced a compound growth rate of 4.9% in the past 3-5 years, and is expected to maintain a growth rate of 4.9% in the next 3-5 years; the market size of the sports industry in North America is expected to continue to remain relatively large in the next 3-5 years. There is a strong growth trend; at the same time, under the background of scientific and technological progress and policy support, the sports industry in Asia, Africa and South America has huge development potential. As an important part of the sports industry, the sporting goods market has maintained overall growth in the past decade and will continue to grow in the next few years.
