Stainless steel self-priming centrifugal pumps are self-priming pumps constructed primarily from stainless steel, designed for handling liquids requiring high sanitary standards, such as those in the food, beverage, and pharmaceutical industries. These pumps are corrosion-resistant, easy to clean, and compliant with hygienic regulations (e.g., CIP/SIP). The self-priming function allows them to quickly evacuate air and draw in liquid upon startup, making them suitable for low-viscosity liquids containing bubbles or small particulates.
