Abstracts

Sell allantoin (CAS 97-59-6) Market Research Report 2026 presents comprehensive data on Sell allantoin markets globally and regionally (Europe, Asia, North America etc.)

The report includes Sell allantoin description, covers its application areas and related patterns. It overviews Sell allantoin market, names Sell allantoin producers and indicates its suppliers.

Besides, the report provides Sell allantoin prices in regional markets.

In addition to the above the report determines Sell allantoin consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Sell allantoin (CAS 97-59-6) Market Research Report 2026 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. SELL ALLANTOIN (CAS 97-59-6)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. SELL ALLANTOIN APPLICATIONS

- 2.1. Sell allantoin application spheres, downstream products

3. SELL ALLANTOIN MANUFACTURING METHODS

4. SELL ALLANTOIN PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. SELL ALLANTOIN MARKET WORLDWIDE

- 5.1. General Sell allantoin market situation, trends
- 5.2. Manufacturers of Sell allantoin
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Sell allantoin suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Sell allantoin market forecast

6. SELL ALLANTOIN MARKET PRICES

6.1. Sell allantoin prices in Europe

6.2. Sell allantoin prices in Asia

6.3. Sell allantoin prices in North America

6.4. Sell allantoin prices in other regions

7. SELL ALLANTOIN END-USE SECTOR

7.1. Sell allantoin market by application sphere

7.2. Sell allantoin downstream markets trends and prospects

*Please note that Sell allantoin (CAS 97-59-6) Market Research Report 2026 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name:	Sell allantoin
Synonyms:	Allantoin
	(2,5-Dioxo-4-imidazolidinyl)urea
	5-Ureidohydantoin
	Cordianine
	Glyoxylic diureide
	Psoralon
	Septalan
	Allantoin
	(2,5-Dioxo-4-imidazolidinyl)-urea
CAS#:	97-59-6
Formula:	$C_4H_6N_4O_3$
Molecular Weight:	158.12
Appearance:	White powder.
Usage:	Relieves the skin irritation caused by soaps and detergents, acids, and alkalies in skin care products.

Allantoin (allantol, uniderm A, glyoxyldiureide, hydantoin, alantan, etc.) refers to a chemical compound that is produced by plants, animals and bacteria. Allantoin is a white to colorless powder or crystals with a pleasant scent or odorless. The compound dissolves in ethanol and sodium hydroxide and does not dissolve in ethyl ether and methanol. The molecular formula of allantoin is $C_4H_6N_4O_3$, and the molecular weight is 158.11.

Allantoin is widely used in the cosmetics industry in lotions, oral hygiene products.

Allantoin is highly effective even at low concentrations in the treatment of acne, psoriasis, impetigo, eczema. Allantoin can be found in sugar beet, chamomile, tobacco seed, wheat sprouts, etc. The product is non-toxic and non-allergic in both natural as well as in chemically synthesized form. Allantoin helps in healing wounds, scars, burns, impetigo, fissures, chapped lips, sunburns, diaper rash. Besides, the product helps to keep skin smooth, healthy and soft, and to protect it against irritants. Allantoin is an ingredient of deodorants and antiperspirants; hair care, foot preparations, anti-inflammatory, veterinary preparations products; facial cleaners, toners and so on. Moreover, the product stimulates cell proliferation and healthy tissue formation.

Direct contact of allantoin with eyes may lead to transient discomfort and cause tearing and conjunctival redness. The product is not considered to be a severe skin irritant. Accidentally swallowed allantoin can produce damage to the health of an individual. Inhalation of the product may cause slight irritation of the respiratory tract. Prolonged exposure to allantoin can cause adverse side effects to the health of an individual.

Allantoin market is covered in the study Allantoin (CAS 97-59-6) Market Research Report 2013. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks allantoin market situation, names manufacturers, suppliers as well as users. The report also provides current allantoin prices in the market.
