Abstracts

Switzerland has one of the old proton therapy centers in Europe and was established in 1984 and there are so many recommended proton therapy patients from other parts of Europe coming for their treatment. The old proton therapy center at CPT, PSI, Villigen was further renovated with technological advancement in 2010 and again in 2013. Switzerland Proton Therapy Market is expected to grow thrice from its present market in 2016. Rising cancer incidence and two advanced proton centers in planning stage is likely to boost the market of proton therapy in Switzerland during 2017 - 2021.

Proton Therapy Market in Switzerland, Reimbursement Policy, Patients Treated at Proton Facility & Forecast is a research report by Renub Research. This report studies the market in two parts a) Actual Market and b) Potential Market. The report also talks about the list of all operational and future Proton Therapy centers; Economics of proton therapy including reimbursement policies. Proton Therapy revenues from 3 companies (IBA, Varian Medical Systems, Elekta) has also been studied in the report.

a) Actual Market is the current market which is already present

b) Potential Market is the market which can be achieved; but it has yet not been achieved due to demand and supply gap. At present only a few proton therapy centers are available that can treat a limited number of patients each year.
