Abstracts

According to “Europe Solid Oxide Fuel Cells Market By Type, By Application, By Country, Competition Forecast and Opportunities, 2013 - 2023” solid oxide fuel cells market is projected to grow at a CAGR of more than 15% by 2023. Growth in the market can be attributed to rising focus on research & development for making electricity generation economical coupled with growing demand for energy efficient power generation among different end users. Additionally, various public-private partnerships have been undertaken to promote the use of solid oxide fuel cells, which is further expected to positively influence Europe SOFC market during the forecast period. Few of the major players operating in Europe solid oxide fuel cells market include: LG Fuel Cell Systems Inc., Fuel Cell Energy, SOLIDpower Group, and Hexis AG. “Europe Solid Oxide Fuel Cells Market By Type, By Application, By Country, Competition Forecast and Opportunities, 2013 - 2023” discusses the following aspects of solid oxide fuel cells market in Europe:

Solid Oxide Fuel Cells Market Size, Share & Forecast

Segmental Analysis – By Type (Tubular & Planar), By Application (Stationary, Transportation, & Portable), By Country (Japan, South Korea, China, India, Australia, & Others)

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of solid oxide fuel cells in Europe

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, solid oxide fuel cells distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with solid oxide fuel cells distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
