Abstracts

According to “South America Ride Hailing Market By Vehicle Type, By Internet Connectivity, By Service Type, By Vehicle Connectivity, By Country, Competition Forecast & Opportunities, 2017-2023” ride hailing market is projected to grow at a CAGR of 11.5% by 2023, owing to growing urbanization and rising internet penetration across the region. Moreover, rising concerns regarding air pollution levels, development of autonomous and semi-autonomous vehicles, and increasing number of collaborations between domestic and international service providers are expected to fuel demand for ride hailing services across the region. Some of the other factors that would have a positive impact on the market are rising population and shifting trend from traditional taxis to ride hailing services in the region. Some of the major players operating in the South America ride hailing market are Uber Technologies Inc., Lyft Inc., Didi Chuxing, BMW AG, Aptiv PLC, Robert Bosch GmbH, IBM Corporation, Gett Inc., ANI Technologies Private Limited, and TomTom International, among others. “South America Ride Hailing Market By Vehicle Type, By Internet Connectivity, By Service Type, By Vehicle Connectivity, By Country, Competition Forecast & Opportunities, 2017-2023” discusses the following aspects of ride hailing market in South America:

Ride Hailing Market Size, Share & Forecast

Segmental Analysis – By Vehicle Type (Passenger Car & Micro Mobility Vehicle), By Internet Connectivity (3G, 4G, 5G & Wi-Fi), By Service Type, By Vehicle Connectivity, By Country

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of ride hailing in South America

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, ride hailing distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with ride hailing distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
