The global Push-Roll Garden Lawn Trimmer market size is predicted to grow from US$ million in 2025 to US$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

A push-roll garden lawn trimmer, often referred to as a manual lawn edger or manual grass trimmer, is a hand-operated gardening tool used to create clean and well-defined edges around flower beds, sidewalks, driveways, and other areas in a garden or lawn. Unlike powered lawn edgers or trimmers that rely on electricity or gasoline, a push-roll lawn trimmer is entirely manual, powered by the user's physical effort.

Manufacturers are focusing on designing trimmers with ergonomic handles, comfortable grips, and height-adjustable features to reduce user strain and improve ease of use.
