Abstracts

“Global Small and Medium Scale LNG- Baltic Sea and South East Asia to Lead the Industry Growth to 2020” is a comprehensive report on small and medium LNG industry. The report evaluates the scope of industry growth amidst MARPOL act, diversified usage of gas and supply, regulatory and technical challenges. It also identifies the markets with immediate and long term demand for small LNG terminals. Further, the research work identifies the feasibility of development in these markets and the possible scope of growth. The research also identifies potential investment opportunities along with latest industry trends and drivers. In addition, all operational and planned LNG terminals along with their complete details are included in the report.

Scope

Leading trends and drivers of small scale LNG industry

Potential and possible development markets along with feasibility of developing terminals is discussed in detail

Annual Small LNG capacity and production forecast from 2000 to 2015

Detailed analysis on investment and new terminal development opportunities in global markets including Baltic, Black Seas, South East Asia, Trinidad and Tobago, Finland, Poland, Latvia, Lithuania, Scotland, Netherlands, Singapore, China, Australia, Indonesia, Papua New Guinea and Nigeria

Industry drivers, challenges along with applications of small LNG terminals are detailed

Global Operational and planned small and medium scale LNG terminals along with details of terminal type, status, location, start up, company and capacity are provided

Terminal types covered in the report include liquefaction, regasification, peakshaver and satellite plants

Global small and medium scale LNG transporting fleet along with their year of built and capacity details

Technology, providers, economic and macro environmental aspects of the industry are detailed

Reasons To Purchase

The report enables you to:

Gain complete understanding of small scale LNG industry and its evolution over the next decade

Identify the potential and possible investment and construction opportunities of terminals

Forecast the short and medium term impact of MARPOL act on different regions of the world

Make strategic decisions through capacity and production forecasts

Compare all available LNG technology providers, their technologies and processes

Gain detailed industry knowledge through all major trends and drivers of the industry

Keep abreast with the competition through all latest developments in the industry

Contents

1 TABLE OF CONTENTS

- 1.1 List of Tables
- 1.2 List of Figures

2 GLOBAL SMALL SCALE LNG INDUSTRY OUTLOOK TO 2015

- 2.1 Industry Overview
 - 2.1.1 Small Scale LNG Industry- Key Benefits
 - 2.1.2 Small Scale LNG Industry- Key Challenges
 - 2.1.3 Industry Scope
 - 2.1.4 Applications of Small LNG
- 2.2 Global Small Scale LNG Capacity forecast to 2015
- 2.3 Production Forecasts

3 POTENTIAL INVESTMENT OPPORTUNITIES FOR SMALL LNG TERMINALS

- 3.1 Russian Federation looks to strengthen its position in Baltic and Black Seas
- 3.2 South East Asia- Gas Demand in Power Generation and Marine sector drive Small LNG Industry growth
 - 3.2.1 Indonesia
 - 3.2.2 Singapore
 - 3.2.3 Southern Philippines and Northern Vietnam
- 3.3 Baltic Sea- LNG Consumption as Marine Fuel
- 3.4 Trinidad and Tobago
- 3.5 Small European Gas markets- Finland, Poland, Latvia, Lithuania and Scotland
- 3.6 Emerging Gas Hubs- Netherlands and Singapore
- 3.7 Large Geographic Areas- China, Australia, Russia and Indonesia
- 3.8 Export Oriented Markets- Papua New Guinea and Nigeria

4 LATEST TRENDS AND DRIVERS IN SMALL LNG INDUSTRY

- 4.1 Small Scale LNG Increasingly Viewed as Feasible Solution for Exploiting Stranded Reserves
- 4.2 Higher Fuel Efficiency and Lower Emissions pose LNG as Preferred Marine Fuel
- 4.3 Surging demand from Power Sector boosts Investments in Small LNG
- 4.4 Technical Advancements Prove Small LNG terminals to be Technically Viable and

Economic Feasible

4.5 Small LNG Industry Continues to Grow despite Shipping, Trucking, Terminal and Infrastructure Challenges

4.6 Development of terminals capable of handling multiple feed gases

4.7 Single Mixed Refrigerant technology, Nitrogen and Expander technologies being increasingly used

4.8 Increasing number of Road Trucks use LNG as fuel

4.9 Small LNG Industry Likely to Compete with DME and LPG plants

4.10 Small scale LNG fleet vessels of size over 10 thousand m³ continue to be developed

5 PLANNED SMALL AND MID SCALE LNG TERMINALS

5.1 Small and Mid Scale Terminals Scheduled for operation in 2012

5.2 Small and Mid Scale Terminals Scheduled for operation in 2013

5.3 Small and Mid Scale Terminals Scheduled for operation in 2014

5.4 Small and Mid Scale Terminals Scheduled for operation in 2015

6 GLOBAL OPERATIONAL AND PLANNED MINI LNG TERMINAL DETAILS

6.1 Asia Pacific- Small and Mid Scale LNG Plant Details

6.1.1 China Small and Mid Scale LNG Industry

6.1.2 Australia Small and Mid Scale LNG Industry

6.1.3 Thailand Small and Mid Scale LNG Industry

6.1.4 Japan Small and Mid Scale LNG Industry

6.2 Europe- Small and Mid Scale LNG Plant Details

6.2.1 Norway Small and Mid Scale LNG Industry

6.2.2 Scotland Small and Mid Scale LNG Industry

6.2.3 Germany Small and Mid Scale LNG Industry

6.2.4 Poland Small and Mid Scale LNG Industry

6.2.5 United Kingdom Small and Mid Scale LNG Industry

6.2.6 Finland Small and Mid Scale LNG Industry

6.2.7 Russia Small and Mid Scale LNG Industry

6.2.8 Belgium Small and Mid Scale LNG Industry

6.2.9 Ecuador Small and Mid Scale LNG Industry

6.2.10 Sweden Small and Mid Scale LNG Industry

6.2.11 Netherlands Small and Mid Scale LNG Industry

6.2.12 Spain Small and Mid Scale LNG Industry

6.2.13 Greece Small and Mid Scale LNG Industry

6.3 Middle East and Africa- Small and Mid Scale LNG Plant Details

- 6.3.1 South Africa Small and Mid Scale LNG Industry
- 6.3.2 Libya Small and Mid Scale LNG Industry
- 6.3.3 Iran Small and Mid Scale LNG Industry

6.4 Americas- Small and Mid Scale LNG Plant Details

- 6.4.1 The US Small and Mid Scale LNG Industry
- 6.4.2 Canada Small and Mid Scale LNG Industry

7 LATEST DEVELOPMENTS IN GLOBAL SMALL AND MEDIUM SCALE INDUSTRY

7.1 BOC Limited in Australia opens its \$65 million Upgraded LNG plant – 8 Feb, 2012

7.2 Sumitomo and Sojitz to Compete in global spot LNG markets – 2 Feb, 2012

7.3 Gazprom Gazenergoset Plans to Develop Urals Small LNG Plant by 2013– 6 Dec, 2011

7.4 China Natural Gas Commences operations of its 1 mcm/d Guang'an small LNG plant – 2 Dec, 2011

7.5 OJSC Gazprom to Develop Khabarovsk Small LNG to supply six Boilers in the region – 25 Nov, 2011

7.6 Kogas proposes to build three mini LNG plants and DME plant in Far East – 25 Oct, 2011

7.7 JSC Cryogenmash sign Equipment supply contract to Chongqing Endurance Industry Stock Co. for its LNG terminals – 9 March, 2011

8 INTRODUCTION TO SMALL SCALE LNG INDUSTRY

8.1 Rising gas demand Encouraging Investments in Small and Mid- Scale LNG Projects

8.2 Supply Chain of Mini Scale LNG Projects

8.3 Small Scale LNG vs. Large (Base Load) LNG

9 SMALL AND MID SCALE LIQUEFACTION AND REGASIFICATION TECHNOLOGIES

9.1 Analysis of Available Technologies

9.2 Linde Engineering- Technologies and Processes

9.3 APCI LNG- Technologies and Processes

9.4 Black and Veatch- Technologies and Processes

9.5 Kryopak- Technologies and Processes

9.6 Hamworthy (Nitrogen Cycle)- Technologies and Processes

9.7 CH4 International- Technologies and Processes

9.8 Cryonorm- Technologies and Processes

9.9 Cryostar- Technologies and Processes

10 APPENDIX

10.1 Abbreviations

10.2 LNG Conversions

10.3 LNG Pricing

10.4 Sources and Methodology

10.5 About LNGReports

10.6 Disclaimer
