## Abstracts

### Introduction

Prefilled syringes are gaining strong acceptance in the market as drug delivery systems for injectable drugs. They have become a preferred device for parenteral administration of drugs, mainly used for treatment of chronic conditions requiring patients to self-administer medication several times a week.

The rising demand for prefilled syringes is driving the manufacturers to introduce improvements in technology related to the material of prefilled syringes, and lubrication technology to reduce leachables and extractables. These developments are primarily to accommodate the increasing number of biologic drugs reaching the market. Additionally, the companies have developed multi-chamber prefilled syringes for use with lyophilised drugs. We look at how these developments and others factors are shaping the market and discuss the factors creating opportunities in the market for prefilled syringes.

While the market is still relatively small, capturing just 25.4% of total injectable drug delivery systems market, it is forecasted to grow strongly over the period 2012-2017. The prefilled syringes market faces some significant challenges ahead, but the outlook looks promising.

### Scope of the Report

The Prefilled Syringe Market report provides a comprehensive analysis of the state of prefilled syringes market in 2011 - 2017. Starting with the basic introduction to prefilled syringes, their origin, components, and manufacturing material, the report talks about needlestick injuries and looks at the safety laws and legislations across major regional markets for prefilled syringe. The report focuses on analysing the existing market size

and potential future growth of these drug delivery devices across different regions. We have also discussed the leading prefilled syringe manufacturers in the industry and the likely future developments driven by these companies.

The report also analyses the market size of the most important drug therapeutic classes, which are available in prefilled syringes. This includes analyses of the leading drugs in each class present in prefilled syringes. The report contains a brief overview of biologics and biosimilars market, one of the primary drivers for growth of the market.

A key objective of the report is to enumerate various prefilled syringes systems available in the market, drugs available in prefilled syringes and the market potential of these devices across different geographical regions. The report discusses various historical / likely future trends which have shaped / will shape the US, European, Japanese, Chinese and Rest of the world (RoW) markets including India and Indonesia.

The market forecasts across different segments and regions have been presented till 2017. 2011 is the base year and actual figures have been taken, analysed from publicly available information. Unless otherwise specified, all figures are presented in USD.

The report also provides profiles of leading manufacturers of prefilled syringes, with analyses of their product portfolio and financial performance. Our report provides a comprehensive view on the worldwide presence of prefilled syringe manufacturers, helping understand the gaps and opportunities.

## **Key Highlights**

1. The global prefilled syringes market is likely to achieve sales of USD 6.1 BN by 2017, growing at a compounded annual growth rate (CAGR) of 13.3% from 2011 to 2017.
2. Plastic syringes accounted for just 0.5% of total prefilled syringes market in 2011. Their share is expected to increase with the development of improved polymers that offer better leachables and extractables profile compared to glass syringes.
3. Increasing number of suppliers now provide ready to fill/ sterile prefilled syringes, which make up more than 80.0% of the prefilled syringes market in 2011.
4. Developed markets of the US and Europe together accounted for 85.0% of the prefilled syringes market in 2011.
5. The integration of prefilled syringes with advanced delivery systems such as pen and autoinjectors will be one of the key drives for their adoption going forward.
6. Companies are developing innovative technology for improving the compatibility profile of prefilled syringes with biologic drugs, including development of lubrication

technology for silicone-free syringes.

7. Increase in the number of self-injecting patients and development of biologic drugs will be the primary drivers for market growth.

## **Research Methodology**

Most of the data presented in this report has been gathered by secondary research. We have also conducted interviews with experts in the area (academia, industry, medical practice and other associations) to solicit their opinions on the emerging trends in the market. This is primarily useful for us to draw out our own opinion on how the market will shape up across different regions and drug segments. Where possible, the available data has been checked for accuracy from multiple sources of information.

The secondary sources of information include

Annual reports

Investor presentations

SEC filings

Industry databases

News releases from company websites

Government policy documents

Other analysts' opinion reports

While the focus has been on forecasting the market over the coming five years, the report also provides our independent view on various technological and non-commercial trends emerging in the industry. This opinion is solely based on our knowledge, research and understanding of the relevant market gathered from various secondary and primary sources of information.

The 2011 data are actual sales as reported in the company annual reports and represent full year sales for respective fiscal years

## Chapter Outlines

**Chapter 1** is a high level Executive Summary of the key market insights presented in the report.

**Chapter 2** provides a general overview of prefilled syringes including their origin, components, types, and manufacturing material. The chapter also talks about needlestick injuries and various preventive laws worldwide have been discussed with focus on safety features in prefilled syringes.

**Chapter 3** highlights the global market for injectable drug delivery systems, including prefilled syringes in 2011 and the likely future growth trends till 2017. This chapter analyses the market with respect to the leading prefilled syringe segments and the leading companies. Also included is our analysis of the glass and plastic prefilled syringe systems available in the market, including their advantages and disadvantages are material of choice for syringe barrel.

**Chapter 4** analyses the regional markets (the US, Europe, Japan, China and RoW) for prefilled syringes. Within each region, the chapter focuses on the market size and various technological, commercial and regulatory details.

**Chapter 5** looks at the market for injectable drugs and biologics in 2011 and market forecast for biologics to 2017. The chapter also highlights the leading therapeutic drug classes available in prefilled syringes. Also provided is a list of top ten drugs in prefilled syringes with three case studies.

**Chapter 6** details the technological developments in prefilled syringes market. It discusses the prefilled syringes manufactured for lyophilised drugs, silicone-free syringes and prefilled syringes with integrated safety features.

**Chapter 7** provides profiles of the key manufacturers of prefilled syringes. Each company profile includes information on financial performance, geographical presence, marketed devices, role and strategy for manufactured devices and recent developments.

**Chapter 8** provides the SWOT analysis of prefilled syringes market giving strategic insights in to the major factors that have contributed to the growth of the market, while highlighting the weaknesses and threats that can negatively impact the growth.

**Chapter 9** summarises the overall report. In this chapter, we provide a recap of the key takeaways and our independent opinion based on the research and analysis described in previous chapters.

**Chapter 10** is an appendix, which provides tabulated data and numbers for all the figures provided in the report.

**Chapter 11** is an appendix, which provides a list of companies and organisations mentioned in this report.

## Contents

### **1 EXECUTIVE SUMMARY**

#### 1.1. Scope of the Report

### **1,2 RESEARCH METHODOLOGY**

### **1,3 CHAPTER OUTLINES**

### **1,4 KEY HIGHLIGHTS**

1.4.1. Prefilled Syringes Market is Likely to Grow Strongly During 2012-2017

1.4.2. Currently Dominated by a Few Large Companies

1.4.3. Biologics to Drive Growth of Prefilled Syringes

1.4.4. Prefilled Syringes Market is Full of Opportunities, but Challenges Remain

### **2 INTRODUCTION TO PREFILLED SYRINGES**

#### 2.1. What are Prefilled Syringes?

#### 2.2. History of Prefilled Syringes

#### 2.3. Prefilled Syringe Components

#### 2.4. Classification of Prefilled Syringes

##### 2.4.1. Single-Chamber and Dual-Chamber

##### 2.4.2. Type of Needle

##### 2.4.3. Manufacturing Material of Barrel

##### 2.4.3.1. Limitations of Glass Prefilled Syringes

#### 2.5. Needlestick Injuries

##### 2.5.1. Incidence and Cost Burden

##### 2.5.2. Government Legislation for Needlestick Injury Prevention

#### 2.6. Safety Options in Prefilled Syringes

### **3 GLOBAL PREFILLED SYRINGE MARKET, 2012-2017**

#### 3.1. Chapter Overview

#### 3.2. Injectable Drug Delivery Systems Market in 2011

#### 3.3. Prefilled Syringe Market, 2011

##### 3.3.1. Most Prefilled Syringes are Provided in Ready-to-Fill Formats

##### 3.3.2. Glass Prefilled Syringes Still Dominate the Prefilled Syringes Market

- 3.3.2.1. Glass: Historical Material of Choice
- 3.3.2.2. Plastics: An Alternative to Glass
  - 3.3.2.2.1. Slow Adoption of Plastic Prefilled Syringes
  - 3.3.2.2.2. Factors Driving the Use of Plastic Prefilled Syringes
- 3.4. Most of the Prefilled Syringes are Provided with Pre-attached Needles
- 3.5. Leading Companies in the Prefilled Syringes Market
  - 3.5.1. Other Companies in the Prefilled Syringes Market
- 3.6. Prefilled Syringe Systems Available in the Market, 2012
  - 3.6.1. Glass Prefilled Syringes
  - 3.6.2. Plastic Prefilled Syringes
- 3.7. Convergence of Prefilled Syringes with Autoinjectors
  - 3.7.1. Pen Injectors vs. Autoinjectors
- 3.8. Injectable Drug Delivery Systems Market, 2012-2017
- 3.9. Conventional Hypodermic Needle Systems, 2012-2017
- 3.10. Autoinjectors and Other Systems, 2012-2017
- 3.11. Prefilled Syringes Market, 2012-2017
  - 3.11.1. Factors Driving the Prefilled Syringe Market
    - 3.11.1.1. Increase in Incidence of Chronic Diseases
    - 3.11.1.2. Use of Prefilled Syringes in Advanced Delivery Devices
    - 3.11.1.3. Innovation in Prefilled Syringes to Address Needlestick Injuries
    - 3.11.1.4. Growth of Biologics and Biosimilars
    - 3.11.1.5. Changing Pharmaceutical Strategies Driving Demand for Prefilled Syringes

## **4 LEADING REGIONAL MARKETS FOR PREFILLED SYRINGE SYSTEMS, 2012-2017**

- 4.1. The US has Caught up with Europe on Use of Prefilled Syringes
- 4.2. The US Market for Prefilled Syringes, 2011
  - 4.2.1. Prefilled Syringes are Combination Products
    - 4.2.1.1. Regulation of Combination Products in the US
    - 4.2.1.2. Regulatory Approval of Prefilled Syringes in the US
  - 4.2.2. Trends in the US Prefilled Syringes Market
- 4.3. European Market for Prefilled Syringes, 2011
  - 4.3.1. Combination Products in Europe
  - 4.3.2. Regulatory Approval of Prefilled Syringes in Europe
  - 4.3.3. Trends in the European Prefilled Syringe Market
    - 4.3.3.1. Europe is the Preferred Destination for Manufacturing Prefilled Syringes
  - 4.3.4. Patient Demographics is Likely to Support Growth of Prefilled Syringes in Europe

- 4.4. The Chinese Market for Prefilled Syringes, 2011
- 4.5. Rest of the World Markets for Prefilled Syringes, 2011
  - 4.5.1. The Japanese Market for Prefilled Syringes
    - 4.5.1.1. Regulation of Combination Products in Japan
    - 4.5.1.2. Primary Pharmaceutical Packaging Market in Japan
    - 4.5.1.3. State of the Market: Drugs and Companies, 2011
  - 4.5.2. The Indian Market for Prefilled Syringes, 2011
    - 4.5.2.1. Presence of Leading Prefilled Syringe Manufacturers in India
  - 4.5.3. The Indonesian Market for Prefilled Syringes, 2011
- 4.6. Regional Prefilled Syringes Market Forecast, 2012-2017

## **5 PRODUCTS AVAILABLE IN PREFILLED SYRINGES**

- 5.1. Injectable Drugs Market, 2011
- 5.2. Biologics Market
  - 5.2.1. Biologics Market Forecast, 2012-2017
  - 5.2.2. Biologics Market Trends, 2012-2017
- 5.3. Drugs Market by Therapeutic Classes, 2011
  - 5.3.1. Anti-rheumatics Market, 2011
    - 5.3.1.1. Anti-rheumatic Drugs in Prefilled Syringes
    - 5.3.1.2. Launch of Biosimilars Post 2014 is Likely to Drive Demand for Prefilled Syringes
  - 5.3.2. Multiple Sclerosis (MS) Therapies Market, 2011
    - 5.3.2.1. MS Therapies in Prefilled Syringes
  - 5.3.3. Anticoagulants Market, 2011
  - 5.3.4. Anti-Diabetes Market, 2011
    - 5.3.4.1. Anti-diabetic Drugs Available in Prefilled Syringes
  - 5.3.5. Vaccines Market, 2011
- 5.4. Drugs Available in Prefilled Syringes, 2012
  - 5.4.1. Pipeline Products
- 5.5. Case Studies
  - 5.5.1. Humira (Adalimumab), Abbott Laboratories/Eisai
    - 5.5.1.1. Indications and Dosage Forms
    - 5.5.1.2. Humira: Launched in Prefilled Syringe
  - 5.5.2. Enbrel (Etanercept), Amgen/Pfizer/Takeda
    - 5.5.2.1. Indications and Dosage Forms
    - 5.5.2.2. Enbrel: Move from Vial to Syringes
  - 5.5.3. Copaxone (Glatiramer acetate), Teva Pharmaceuticals
    - 5.5.3.1. Copaxone: Move from Vial to Syringes

## 5.6. Contrast Agents Available in Prefilled Syringes

# 6 TECHNOLOGICAL DEVELOPMENT IN PREFILLED SYRINGES

## 6.1. Prefilled Syringes for Lyophilised Drugs

### 6.1.1. Prefilled Diluent Syringes

### 6.1.2. Dual/Multi-Chamber Syringes

### 6.1.3. Lyophilised Drugs Available in Dual/Multi-Chamber Prefilled Syringe

## 6.2. Silicone-free Syringes

### 6.2.1. Fluoropolymer Film Coating

### 6.2.2. XSi Coating

## 6.3. Prefilled Safety Syringes

### 6.3.1. Safety Mechanism Used by Prefilled Syringe Manufacturers

#### 6.3.1.1. Unifill Safety Syringes

#### 6.3.1.2. MedPro Prefilled Safety Syringes

#### 6.3.1.3. Becton Dickinson To Strengthen Its Safety Portfolio

# 7 PROFILES OF LEADING COMPANIES

## 7.1. Becton Dickinson (BD)

### 7.1.1. Company Overview

### 7.1.2. Financial Performance, 2011

### 7.1.3. Products and Processes

#### 7.1.3.1. BD Hypak Syringe Systems

#### 7.1.3.2. BD Sterifill Syringe Systems

#### 7.1.3.3. BD Uniject

#### 7.1.3.4. Other Injectable Delivery Systems

#### 7.1.3.5. Safety Systems: Add-On Devices

#### 7.1.3.6. BD Prefilled Technology Solutions

### 7.1.4. Recent Developments

## 7.2. Gerresheimer

### 7.2.1. Company Overview

### 7.2.2. Financial Performance, 2011

### 7.2.3. Products and Processes

#### 7.2.3.1. Glass Syringes (Ready to Fill and Bulk)

#### 7.2.3.2. ClearJect Plastic Syringes

#### 7.2.3.3. Insulin Pens

#### 7.2.3.4. Finishing Processes

### 7.2.4. Recent Developments

7.2.4.1. Expansion of Manufacturing Capacity for RTF Syringes

7.2.4.2. Medical Plastic Systems Capacity Expansion

7.2.4.3. Growing Interest in the Emerging Economies

### 7.3. SCHOTT

7.3.1. Company Overview

7.3.2. Financial Performance, 2011

7.3.3. Prefilled Syringe Products

7.3.3.1. Forma 3s Glass Syringes

7.3.3.2. TopPac Polymer Syringes

7.3.3.3. InJentle Syringes

7.3.4. Recent Developments

7.3.4.1. Looking To Grow in the Emerging Markets

7.3.4.2. Production Facility in the US Likely to Provide Advantage

### 7.4. West Pharmaceutical Services

7.4.1. Company Overview

7.4.2. Financial Performance, 2011

7.4.3. Marketed Products

7.4.3.1. Daikyo Crystal Zenith (CZ) RU System

7.4.3.2. Autoinjectors and Other Systems

7.4.3.3. Prefilled Syringe Components

7.4.4. Recent Developments

### 7.5. Nuova Ompi

7.5.1. Company Overview

7.5.2. Products

7.5.2.1. EZ-fill Syringes

7.5.3. Recent Developments

### 7.6. MGLas AG (Now a Part of Nipro Corporation)

7.6.1. Company Overview

7.6.2. Prefilled Glass Syringes

7.6.3. Acquisition by Nipro Corporation

## 8 SWOT ANALYSIS

8.1. Overview

8.2. Strengths

8.2.1. Ease of Use

8.2.2. Elimination of Medication Errors

8.2.3. High Incidence of Blood-borne Pathogen Transmission

8.2.4. Economic Advantages

#### 8.2.5. Life Cycle Management

### 8.3. Weaknesses

#### 8.3.1. Manufacturing Complexities

#### 8.3.2. Elevated Packaging Costs

#### 8.3.3. Product Stability

#### 8.3.4. Air Bubbles During Filling

### 8.4. Opportunities

#### 8.4.1. Increase in Number of Self-injecting Patients

#### 8.4.2. Rich Pipelines Drugs

#### 8.4.3. Growth of Biologics

#### 8.4.4. Growth of Biosimilars

#### 8.4.5. Geographic Expansion

#### 8.4.6. Useful in Vaccination Programmes

### 8.5. Threats

#### 8.5.1. Material Compatibility Issues

#### 8.5.2. Recall of Prefilled Syringes

#### 8.5.3. Alternative Drug Delivery Devices

## 9 CONCLUSIONS

### 9.1. The Shift from Vials to Prefilled Syringes

### 9.2. Plastic Syringes to Outperform Glass Syringes

### 9.3. Current and Future State of the Prefilled Syringes Market

### 9.4. Key Driving Factors

### 9.5. Concluding Remarks

## **LIST OF COMPANIES AND ORGANISATIONS**

The following companies have been mentioned in this report:

1. Abbott Laboratories
2. Aguetant
3. Allergan
4. Almirall
5. Amgen
6. Antares Pharma
7. Arte Corporation
8. AstraZeneca
9. Bang and Olufsen
10. Bayer Healthcare
11. Becton Dickinson
12. Biocon
13. Bio Farma
14. Biogen Idec
15. Bioneer
16. Boehringer Ingelheim Pharmaceuticals
17. Bracco Diagnostics
18. Buender Glas
19. Cambridge Consultants
20. Chugai Pharmaceutical Co., Ltd.
21. Covidien
22. CSL Biotherapies

23. Daikyo Seiko
24. Denka Seiken Co., Ltd.
25. Eisai
26. Elan Pharmaceuticals
27. Eli Lilly
28. EMD Serono
29. Eyetech Inc.
30. GE Healthcare
31. Genentech
32. Gerresheimer
33. GlaxoSmithKline
34. Globe Medical Tech
35. Guerbet
36. Hanwha Chemical
37. Haselmeier
38. Helvoet Pharma
39. Hoffman-La Roche
40. Hospira
41. Hyaluron Contract Manufacturing
42. ID Biomedical Corporation of Quebec
43. Immunex Corporation
44. Intelliject
45. Ipsen
46. IVEK Corporation
47. J&J
48. Janssen Pharmaceutical K.K.
49. Japan Synthetic Rubber
50. JCR Pharmaceuticals
51. Kaketsuken [The Chemo-Sero-Therapeutic Research Institute]
52. Kitasato Daiichi Sankyo Vaccine
53. Kyowa Hakko Kirin
54. Mallinckrodt
55. Maruishi Pharmaceutical
56. MedImmune
57. Medimop Medical Projects
58. MedPro Safety Products
59. Merck Sharp & Dohme
60. Meridian
61. Mglas AG

62. Mitsubishi Tanabe
63. Mitsui Chemicals
64. Nektar Therapeutics
65. Nippon Organon K.K.
66. Nipro Corporation
67. Novartis
68. Novo Nordisk
69. Nuova Ompi
70. Ono Pharmaceuticals
71. Owen Mumford
