Activated Bleaching Earth (CAS 70131-50-9) Market Research Report 2024

https://marketpublishers.com/r/A0B6C9407E1EN.html
Date: April 2024
Pages: 70
Price: US$ 2,200.00 (Single User License)
ID: A0B6C9407E1EN

Abstracts

Activated Bleaching Earth (CAS 70131-50-9) Market Research Report 2024 presents comprehensive data on Bentonite, acid-leached markets globally and regionally (Europe, Asia, North America etc.)

The report includes Bentonite, acid-leached description, covers its application areas and related patterns. It overviews Bentonite, acid-leached market, names Bentonite, acid-leached producers and indicates its suppliers.

Besides, the report provides Bentonite, acid-leached prices in regional markets.

In addition to the above the report determines Bentonite, acid-leached consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

+44 20 8123 2220
info@marketpublishers.com

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Activated Bleaching Earth (CAS 70131-50-9) Market Research Report 2024 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. BENTONITE, ACID-LEACHED (CAS 70131-50-9)

1.1. General information, synonyms
1.2. Composition, chemical structure
1.3. Safety information
1.4. Hazards identification
1.5. Handling and storage
1.6. Toxicological & ecological information
1.7. Transport information

2. BENTONITE, ACID-LEACHED APPLICATIONS

2.1. Bentonite, acid-leached application spheres, downstream products

3. BENTONITE, ACID-LEACHED MANUFACTURING METHODS

4. BENTONITE, ACID-LEACHED PATENTS

Abstract
Description
Summary of the invention
Detailed description of the invention

5. BENTONITE, ACID-LEACHED MARKET WORLDWIDE

5.1. General Bentonite, acid-leached market situation, trends
5.2. Manufacturers of Bentonite, acid-leached
- Europe
- Asia
- North America
- Other regions
5.3. Bentonite, acid-leached suppliers (importers, local distributors)
- Europe
- Asia
- North America
- Other regions

+44 20 8123 2220
info@marketpublishers.com

5.4. Bentonite, acid-leached market forecast

6. BENTONITE, ACID-LEACHED MARKET PRICES

6.1. Bentonite, acid-leached prices in Europe
6.2. Bentonite, acid-leached prices in Asia
6.3. Bentonite, acid-leached prices in North America
6.4. Bentonite, acid-leached prices in other regions

7. BENTONITE, ACID-LEACHED END-USE SECTOR

7.1. Bentonite, acid-leached market by application sphere
7.2. Bentonite, acid-leached downstream markets trends and prospects

*Please note that Activated Bleaching Earth (CAS 70131-50-9) Market Research Report 2024 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name: Bentonite, acid-leached

Synonyms:

Activated bleaching clay

Atlapulgite

CAS#: 70131-50-9

Activated bleaching earth (ABE), otherwise known as Fuller Earth or activated clay, is a light pink, white or gray solid. The product refers to a type of clay, which is widely spread in England, the USA, Asia and India. Activated bleaching earth possesses good absorbing, filtering and bleaching properties. The clay is insoluble in water, oil or organic solvent. The product is manufactured from montmorillonite clays by Dry or Wet process.

Activated bleaching earth has various applications. One of its key uses is decoloration and purification of oil, lubricant oil, grease, paraffin oil, gas oil, kerosene in the oil industry. Moreover, the product is used in the field of animal and vegetable oil refining to decolorize purification. The chemical and food industries are amid the primary consumers of activated bleaching earth. In the chemical industry, the product is effective as a catalyst, filler, desiccant, adsorbent, and waste treatment flocculants. In the food industry, activated bleaching earth is known as an agent for clarifying wine and sugar. This product shows a good effect on the air purification. Besides, it is utilized in medical and defense science.

Activated bleaching earth can cause eye irritation and discomfort. Overexposure of the product to the skin may lead to irritation. If swallowed, activated bleaching earth can provoke nausea, diarrhea, vomiting and even abdominal pain. Inhalation of the products can result in the respiratory tract irritation.

Activated bleaching earth market is covered in the study Activated Bleaching Earth (CAS 70131-50-9) Market Research Report 2023. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks activated bleaching earth market situation, names manufacturers, suppliers as well as users. The report also provides current activated bleaching earth prices in the market.
