Abstracts

The future of the Middle Eastern and North African base epoxy resin market looks promising with opportunities in the paint and coatings, composites, electrical and electronics, construction, adhesives, and others. The Middle Eastern and North African base epoxy resin market is expected to decline in 2020 due to the global economic recession led by COVID-19. However, the market will witness recovery in the year 2021, and it is expected to grow with a CAGR of 3%-5% from 2019-25. The major drivers for this market are rise in infrastructure projects, and growth in automotive and electrical and electronics industries.

Emerging trends, which have a direct impact on the dynamics of the industry, include increasing usage of solvent-free epoxy resin, and development of bio-based epoxy resin.

A total of 68 figures/charts and 27 tables are provided in this 116-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the Middle Eastern and North African base epoxy resin market report, please download the report brochure.

The study includes trends and forecast for the Middle Eastern and North African base epoxy resin market by application as follows:

By Application [Volume (M lbs) and $M shipment analysis for 2014 – 2025]:
Paint and CoatingsCompositesElectrical and ElectronicsConstructionAdhesivesOthers
Some of the base epoxy resin companies profiled in this report include 3M, Aditya Birla Chemicals, BASF SE, Daicel Corporation, DuPont, Hexion, Huntsman Corporation,

NAMA Chemicals, NAN YA Plastics, and Olin Corporation.

Lucintel forecasts that paint and coatings application will remain the largest segment over the forecast period due to the demand for paint and coatings in Saudi Arabia, Qatar, UAE, and Kuwait countries is increasing at a moderate rate, as the economic scenario in these countries is still affected by the oil & gas market.

Within this market, paint and coatings will remain the largest application segment over the forecast period due to increasing demand for protection of concrete floors in the industrial and commercial facilities.

Features of the Middle Eastern and North African Base Epoxy Resin Market

Market Size Estimates: Middle Eastern and North African base epoxy resin market size estimation in terms of value ($M) shipment.Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments.Segmentation Analysis: Middle Eastern and North African base epoxy resin market size by one segment, such as application in terms of value.Country Analysis: Middle Eastern and North African base epoxy resin market breakdown by the Saudi Arabia.Growth Opportunities: Analysis of growth opportunities in different application type, for the Middle Eastern and North African base epoxy resin market.Strategic Analysis: This includes M&A, new product development, and competitive landscape of the Middle Eastern and North African base epoxy resin market.Analysis of competitive intensity of the industry based on Porter’s Five Forces model.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the Middle Eastern and North African base epoxy market by application (paint and coatings, composites, electrical and electronics, construction, adhesives, and others)?
Q.2 Which segments will grow at a faster pace and why?
Q.3 Which country will grow at a faster pace and why?
Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the Middle Eastern and North African base epoxy resin market?
Q.5 What are the business risks and threats to the Middle Eastern and North African base epoxy resin market?
Q.6 What are emerging trends in this base epoxy resin market and the reasons behind them?
Q.7 What are some changing demands of customers in this base epoxy resin market?
