Abstracts

Given the rise of emerging technologies such as AI, IoT, and 5G, global cybersecurity market has continued to expand rapidly over the years. It is estimated that global cybersecurity market will post a 7.6% CAGR during the period 2017-2022. In response to the increasing demand for cybersecurity products and services, Taiwan's cybersecurity industry has integrated with IT (Information Technology), OT (Operation Technology), CT (Communication Technology) service and product providers, consulting firms, and telecom operators to enhance the quality of cybersecurity services and products. This report provides the latest development of the cybersecurity industry in Taiwan in terms of industry trends and supply chains, and examines key stakeholders in the industry.
