Abstracts

The report finds that the global IP camera industry's shipment volume witnessed an over 30% sequential growth and 9.5% year-on-year growth in the second quarter of 2017, owing to the decreased ASP (Average Selling Price) of IP camera solutsions that spur the implementation of IP camers. The industry's shipment volume is forecast to grow 10% year-on-year in the second half of 2017 and reach over 3 million units, bolstered by the rollout of new porudcts and the expansion of new applications.
