Abstracts

Republic of Congo Refinery industry outlook report from OGANALYSIS provides comprehensive information on Republic of Congo oil refining sectors and supply demand of petroleum products. The report includes detail information on Republic of Congo refinery infrastructure, capacities, companies and market outlook. Further, the role of Republic of Congo in regional and global refining industry is analyzed and the country is benchmarked against its peer markets in the region.

Investment, new entry and other potential business opportunities of operating in Republic of Congo oil refining market is analyzed. Further, forecasts for Gasoline, LPG, Diesel and fuel oil products production, consumption and imports/exports are provided in the report from 2002 to 2025.

Company wise refining capacities, coking, Fluid catalytic cracking and Hydrocracking capacities and their outlook to 2020 is also provided. Business strategies, market structure and other key company related information is also provided in detail. In addition, company profiles of three leading refiner companies in Republic of Congo are also analyzed in detail. Further, all major industry developments and their impact on the Republic of Congo refining industry are analyzed in the research work.
