**India 5-30 HP Diesel Engine Market (2018-23): Market Forecast by Types (Horizontal and Vertical Engine), Cylinder Types (Single, Double, Triple and Four), Applications (Agricultural, Automobiles, Power and Others), Regions (Northern, Western, Eastern and Southern) and Competitive Landscape**

India 5-30 Hp diesel engine market is expected to witness substantial growth primarily due to high utilization in agricultural and commercial sector. Commercial and passenger three-wheeler, light commercial four-wheeler, diesel pump and mini farm equipment such as tractor and power tiller remains the key revenue generating segments in 5-30 Hp diesel engine market.

According to 6Wresearch, India 5-30 Hp diesel engine market is projected to grow at a CAGR of 3.9% during 2018-23. In India, 5-30 Hp diesel engines in auto segment accounted for majority of the market revenue share in the country. The auto sector is expected to maintain its market dominance throughout the forecast period. Utilization of these engines in commercial and passenger three-wheeler and light commercial four-wheeler would drive the market. Further, agricultural sector is the second largest consumer in value terms due to high utilization of diesel engines in farm equipment. With just a 40% farm mechanization rate, India is expected to witness growth in demand for self-propelled farm equipment during the forecast period. Decreasing labor availability and increasing labor cost would also lead to growth in farm equipment requirement.

Amongst all cylinder types, single cylinder engines accounted for major share in the overall India 5-30 Hp diesel engine market. Diesel pumps, farm equipment and

automobile are the key revenue generating segments. Further, among all the regions, the Northern region accounted for the highest revenue share in 2017. However, the diesel pump market, which is a major consumer of 5-30 hp diesel engines is expected to witness slowdown due to improved power supply position in rural India. Market is expected to surge on account of growing small commercial vehicle market and growing exports of diesel based equipment.

The report thoroughly covers the 5-30 Hp diesel engine market by type, cylinder type, applications and regions. The report provides an unbiased and detailed analysis of the on-going trends, opportunities/high growth areas, market drivers which would help the stakeholders to device and align their market strategies according to the current and future market dynamics.
