SNAPSHOT

OTR Tires (Off-the-road tires) are utilized for large-scale machinery at construction and mining and other sites with no roads. These tires mainly made with premium casings and durable compounds. Off-the-road tires offer substantial support for machinery used at various civil engineering sites, including ultra-large dump trucks, earth and gravel at mining and dam construction sites, bulldozers for earth removal and graders for road construction and snow removal.

The Asia-Pacific Off-The-Road Tyre market will reach xxx Million USD in 2018 and CAGR xx% 2018-2023. The report begins from overview of Industry Chain structure, and describes industry environment, then analyses market size and forecast of Off-The-Road Tyre by product, region and application, in addition, this report introduces market competition situation among the vendors and company profile, besides, market price analysis and value chain features are covered in this report.
