Abstracts

Snapshot

Ambulatory Surgery Centers—known as ASCs—are modern health care facilities focused on providing same-day surgical care, including diagnostic and preventive procedures. An ambulatory surgery center is a specialized outpatient facility where patients undergo surgical procedures without having to be admitted to a hospital. Patients leave the same day they are treated - usually within a few hours. In general, patients walk into the operating room and upon recovery walk out escorted by a family member or loved one

This report covers Ambulatory Surgery Center basic market data by segment:

- 1 by Product
- 2 by End-User
- 3 by Company
- 4 by Region
- 5 by Channel
- 6 by Price

This report can also be customized according to further requirements.
