## Abstracts

### SNAPSHOT

A stroller is designed for infants who have begun to sit. A stroller should have safety equipment like harness and safety belts to ensure that the baby is safe sitting inside one. Besides, a stroller also comes with a hood or a canopy to protect the baby. Strollers today come in many varieties with many different features, giving lots of options to choose. And consumers may prefer the strollers with advantages like lighter, compact, easy to store and avoid waking baby. A stroller generally has three or four wheels for move easy. Some can folds into a significantly smaller size, which can make storage in a back of a small car trunk practical and makes storage at home simpler too.
