## **Abstracts**

### **SNAPSHOT**

Commercial baggage handling system is an integral part of any commercial airport and the operational efficiency of an airport is largely dependent on this system. A smartly designed baggage handling system helps in improving passenger convenience while reducing the aircraft turnaround time. This system includes conveyors, identification devices, screening devices, sortation devices, and destination-coded vehicles. The commercial baggage handling system in this report refers to the whole set of designing, engineering, manufacturing, integrating, and installing complete baggage handling systems used in the airport. It doesn't include the separate component.

The global Commercial Baggage Handling System market will reach xxx Million USD in 2018 and with a CAGR of xx% between 2019-2025.
