SUMMARY

Electric Forklift refers to a powered industrial truck used to lift and move materials short distances, which is powered by electricity. Majority of electric forklifts are powered by batteries, which are used as source power to drive the motor driving motor and hydraulic systems to travel and load and unload operations. Compared with internal combustion forklifts, electric forklifts have advantages such as less pollution, easier to operate and higher energy efficiency. Along with the development of economy and the enhancement of environmental protection consciousness, the industry of electric forklift has experienced a rapid growth.

The report forecast global Electric Forklift market to grow to reach xxx Million USD in 2019 with a CAGR of xx% during the period 2020-2024.

The report offers detailed coverage of Electric Forklift industry and main market trends. The market research includes historical and forecast market data, demand, application details, price trends, and company shares of the leading Electric Forklift by geography. The report splits the market size, by volume and value, on the basis of application type and geography.

First, this report covers the present status and the future prospects of the global Electric Forklift market for 2015-2024.

And in this report, we analyze global market from 5 geographies: Asia-Pacific[China, Southeast Asia, India, Japan, Korea, Western Asia], Europe[Germany, UK, France, Italy, Russia, Spain, Netherlands, Turkey, Switzerland], North America[United States,
