## Abstracts

### SUMMARY

Licorice extract comes from the licorice plant. The root of the plant is primarily used in preparing the extract, and the hard woody plant is pulped then boiled to further extract and refine the contents. Licorice extract is a natural ingredient often found in both food and herbal medicine supplements. While the full medicinal effectiveness of licorice has not been completely tested, some benefits have been proven and others have enough support to warrant its inclusion in a number of supplements. Often found in teas and used in a number of different products as a flavoring ingredient, licorice extract can provide help in treating stomach issues such as heartburn, but does have some noteworthy side effects that should be considered.

The report forecast global Licorice Extract market to grow to reach xxx Million USD in 2020 with a CAGR of xx% during the period 2020-2025.

The report offers detailed coverage of Licorice Extract industry and main market trends. The market research includes historical and forecast market data, demand, application details, price trends, and company shares of the leading Licorice Extract by geography. The report splits the market size, by volume and value, on the basis of application type and geography.

First, this report covers the present status and the future prospects of the global Licorice Extract market for 2015-2025.

And in this report, we analyze global market from 5 geographies: Asia-Pacific[China, Southeast Asia, India, Japan, Korea, Western Asia], Europe[Germany, UK, France,
