SUMMARY

Menthol is an organic compound with the chemical formula $C_{10}H_{20}O$ that occurs naturally in mint and some other plants. It can be extracted from the leaves by distillation, and it can be made synthetically. Pure menthol is a crystalline solid. The compound is widely used in cough and cold remedies because of its soothing effects and as a flavoring in candy, chewing gum, medical products and cigarettes. The data of the report is based on the menthol product with purity of 99%min. And other products in lower menthol purity have been converted in the equivalent of 100%.

This report describes the development of the industry by upstream & downstream, industry overall and development, key companies, as well as type segment & market application and so on, and makes a scientific prediction for the development industry prospects on the basis of analysis, finally, analyzes opportunities for investment in the industry at the end of the report.
