Summary

An organic product is made from organic raw materials. Processed organic food usually contains only organic ingredients. If non-organic ingredients are present, at least a certain percentage of the food's total plant and animal ingredients must be organic (95% in the United States, Canada, China and Australia). It also requires Organic certification. Organic certification is a certification process for producers of organic food and other organic agricultural products. Requirements vary from country to country, and generally involve a set of production standards for growing, storage, processing, packaging and shipping.
