SNAPSHOT

The Passenger Information System, PIS, is the operating tool responsible for providing, at any time, visual and audio information to passengers at stations and transfer facilities, both automatically or programmed manually.

The global Passenger Information System market size is estimated at xxx million USD with a CAGR xx% from 2016-2020 and is expected to reach xxx Million USD in 2021 with a CAGR xx% from 2021 to 2026. The report begins from overview of Industry Chain structure, and describes industry environment, then analyses market size and forecast of Passenger Information System by product, region and application, in addition, this report introduces market competition situation among the vendors and company profile, besides, market price analysis and value chain features are covered in this report.

Product Type Coverage (Market Size & Forecast, Major Company of Product Type etc.):
