Abstracts

Summary

Perforated Stretch Film can be used for palletising products that would benefit from breathing. The large holes increase the air circulation thereby improving shelf life. For products that are wrapped whilst warm, the holes allow unrestricted cooling and reduce condensation.

This report describes the development of the industry by upstream & downstream, industry overall and development, key companies, as well as type segment & market application and so on, and makes a scientific prediction for the development industry prospects on the basis of analysis, finally, analyzes opportunities for investment in the industry at the end of the report.
