SUMMARY

Smart TV is a natural development of the increasing convergence and expansion of multimedia delivery. Smart TVs allow users to customize their TV entertainment experience by using apps that are very similar to the apps people use on their mobile phones. Before shopping for a Smart TV, buyers should know what constitutes the classification of a Smart TV and what supplemental products they will need to operate it. Network connectivity and usage become an issue with Smart TVs, so buyers should learn how they can hook up their Smart TV before purchasing one. Having the added features of a Smart TV can impact what type of remote control an owner can use, so buyers can implement a number of tips to control their Smart TV. Additionally, Smart TVs can work with PCs and notebooks to expand their usability.
