Summary

Zirconium Oxide Flap Disc is a 3-dimensional abrasive product. They consist of abrasive flaps which surface filled with zirconium oxide and glued radially to a backing plate. As the product is used the abrasive wears down and new abrasive is exposed underneath. Flap discs offer fast stock removal and provide grinding, blending and finishing with one product.

This report describes the development of the industry by upstream & downstream, industry overall and development, key companies, as well as type segment & market application and so on, and makes a scientific prediction for the development industry prospects on the basis of analysis, finally, analyzes opportunities for investment in the industry at the end of the report.
