Abstracts

The global abrasive paper market was valued at \$4.4 billion in 2022, and is projected to reach \$6.6 billion by 2032, growing at a CAGR of 4.3% from 2023 to 2032.

Abrasive paper is a versatile and essential tool in various industries for surface preparation, finishing, and material removal. It is composed of a backing material, typically paper or cloth, with abrasive particles adhered to it using an adhesive. The abrasive particles include materials such as aluminum oxide, silicon carbide, or other abrasives, depending on the intended application. Abrasive paper is designed to abrade or smooth surfaces through friction when rubbed against them.

It plays a crucial role in tasks ranging from woodworking and metalworking to automotive refinishing and construction. The varying grit sizes of abrasive particles on the paper determine the coarseness or fineness of the abrasive action that makes it suitable for tasks that demand precision or more aggressive material removal. The application of abrasive paper is widespread, aiding in achieving desired surface qualities, shaping materials, and ensuring a smooth and refined finish across diverse industrial and DIY projects.

The growth of abrasive paper is driven by the rise in demand for high-precision abrasives in the field of electronics manufacturing. As the electronics industry continues to advance at a rapid pace, the need for precision in manufacturing processes has become important. Abrasive paper plays a crucial role in achieving the required level of precision by facilitating precise surface preparation, finishing, and material removal in the production of electronic components. All these factors increase the demand for the abrasive paper market during the forecast period.

However, the construction and automotive sectors experience fluctuations influenced by economic conditions, market trends, and geopolitical factors. During periods of economic downturns or reduced construction activities, the demand for abrasive paper used in surface preparation and finishing applications within these industries declines. This dependency on the economic health and performance of end-user sectors introduces an element of vulnerability to the abrasive paper market. Moreover, the reliance on specific industries also makes the abrasive paper market susceptible to regulatory changes and environmental concerns. As industries face increasing pressure to adopt sustainable practices and reduce environmental impact, there are shifts in material preferences and usage patterns. All these factors hamper the abrasive paper market growth.

The abrasive paper market is witnessing promising opportunities propelled by ongoing advancements in abrasive technology. These innovations represent a pivotal force driving the market growth, offering enhanced performance, efficiency, and versatility in abrasive paper applications across various industries. The continuous evolution of abrasive materials and manufacturing processes contributes to the development of high-performance abrasive papers, meeting the evolving needs of end-users. Moreover, the refinement of manufacturing processes adds another dimension to the opportunities within the abrasive paper market. Advanced production techniques, such as precision coating and bonding methods, result in abrasive papers with consistent quality and performance.

The abrasive paper market is segmented on the basis of type, application, abrasive grain, and region. On the basis of type, the market is divided into dry abrasive paper, wet abrasive paper, sponge abrasive paper, dust free, and others. Dry abrasive paper segment accounted for one-third of global abrasive paper market share in 2022 and is expected to maintain its dominance during the forecast period. The environmental considerations and the increase in emphasis on sustainable practices contribute to the demand for dry abrasive paper. Manufacturers and end-users are increasingly seeking

abrasive papers that minimize waste, reduce environmental impact, and adhere to eco-friendly standards. This shift towards sustainability is prompting the development of dry abrasive papers that are effective in their abrasive properties and align with the broader goal of environmentally responsible manufacturing practices.

On the basis of application, the market is segmented into wood processing, metal polishing, electronic product, painting and finishing, automotive polishing, and others. Wood processing segment accounted for more than one-fourth of global abrasive paper market share in 2022 and is expected to maintain its dominance during the forecast period. The versatility of abrasive paper makes it an indispensable tool in wood processing applications. Whether its sanding, polishing, or removing imperfections, abrasive papers are tailored to address diverse requirements across different wood types and manufacturing stages. This adaptability enhances the overall flexibility of wood processing operations that allow manufacturers to achieve a wide range of finishes and textures.

On the basis of abrasive grain, the market is segmented into aluminum oxide, silicon carbide, zirconia alumina, diamond, and others. Aluminum oxide segment accounted for less than two-fifths of global abrasive paper market share in 2022 and is expected to maintain its dominance during the forecast period. The consistent and predictable performance of aluminum oxide enhances its appeal in abrasive paper formulations. Manufacturers and end-users appreciate its reliability in delivering precise and uniform results, ensuring a high-quality finish on surfaces. This predictability is especially crucial in applications where precision and repeatability are important, such as in the production of electronic components or high-precision machinery parts.

Region-wise, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA. Asia-Pacific accounted for more than two-fifths of global abrasive paper market share in 2022 and is expected to maintain its dominance during the forecast period. The expansion in automotive industry plays a significant role in the demand for abrasive paper. As the automotive sector continues to grow and upgrade its manufacturing processes, there is a heightened requirement for abrasive papers used in tasks such as paint preparation, bodywork finishing, and polishing. The pursuit of superior quality and aesthetically appealing automotive finishes contributes to the escalating demand for specialized abrasive materials.

Key players in the abrasive paper market include 3M, Bosch Limited, Deerfos, Hermes Schleifmittel GmbH, Klingspor AG, Mirka Ltd, MISUMI Corporation, Saint-Gobain, sia Abrasives Industries AG, and VSM AG.

Apart from these major players, there are other key players in the abrasive paper market. These include Abmast Abrasives Corp, Abrasiflex Pty Ltd, Asahi Diamond Industrial Co.,Ltd., August R?ggeberg GmbH & Co. KG, AWUKO ABRASIVES Wandmacher GmbH & Co. KG, Ekamant, Flexovit, Jiangsu Sanling Abrasive Co., Ltd., Keystone Abrasives, Orient Ceratech, RHODIUS, Tyrolit Schleifmittelwerke Swarovski AG & Co K.G., Uneeda Enterprizes, Inc., and Winoa.

Key Benefits For Stakeholders

This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the abrasive paper market analysis from 2022 to 2032 to identify the prevailing abrasive paper market opportunities.

The market research is offered along with information related to key drivers, restraints, and opportunities.

Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.

In-depth analysis of the abrasive paper market segmentation assists to determine the prevailing market opportunities.

Major countries in each region are mapped according to their revenue contribution to the global market.

Market player positioning facilitates benchmarking and provides a clear understanding of the present position of the market players.

The report includes the analysis of the regional as well as global abrasive paper market trends, key players, market segments, application areas, and market growth strategies.

Additional benefits you will get with this purchase are:

Quarterly Update and* (only available with a corporate license, on listed price)

5 additional Company Profile of client Choice pre- or Post-purchase, as a free update.

Free Upcoming Version on the Purchase of Five and Enterprise User License.

16 analyst hours of support* (post-purchase, if you find additional data requirements upon review of the report, you may receive support amounting to 16 analyst hours to solve questions, and post-sale queries)

15% Free Customization* (in case the scope or segment of the report does not match your requirements, 15% is equivalent to 3 working days of free work, applicable once)

Free data Pack on the Five and Enterprise User License. (Excel version of the report)

Free Updated report if the report is 6-12 months old or older.

24-hour priority response*

Free Industry updates and white papers.

CHAPTER 1: INTRODUCTION

- 1.1. Report description
- 1.2. Key market segments
- 1.3. Key benefits to the stakeholders
- 1.4. Research methodology
 - 1.4.1. Primary research
 - 1.4.2. Secondary research
 - 1.4.3. Analyst tools and models

CHAPTER 2: EXECUTIVE SUMMARY

- 2.1. CXO perspective

CHAPTER 3: MARKET OVERVIEW

- 3.1. Market definition and scope
- 3.2. Key findings
 - 3.2.1. Top impacting factors
 - 3.2.2. Top investment pockets
- 3.3. Porter s five forces analysis
 - 3.3.1. Moderate bargaining power of suppliers
 - 3.3.2. Moderate threat of new entrants
 - 3.3.3. Moderate threat of substitutes
 - 3.3.4. High intensity of rivalry
 - 3.3.5. Moderate bargaining power of buyers
- 3.4. Market dynamics
 - 3.4.1. Drivers
 - 3.4.1.1. Growth in construction and infrastructure development
 - 3.4.1.2. Rising demand from the automotive and metal fabrication industries
 - 3.4.1.3. Increasing adoption in woodworking and furniture manufacturing
 - 3.4.2. Restraints
 - 3.4.2.1. Availability of alternative abrasive products
 - 3.4.3. Opportunities
 - 3.4.3.1. Development of high-performance and eco-friendly abrasive papers
- 3.5. Value Chain Analysis

CHAPTER 4: ABRASIVE PAPER MARKET, BY TYPE

4.1. Overview

4.1.1. Market size and forecast

4.2. Dry Abrasive Paper

4.2.1. Key market trends, growth factors and opportunities

4.2.2. Market size and forecast, by region

4.2.3. Market share analysis by country

4.3. Sponge Abrasive Paper
