Abstracts

Asia-Pacific Mobile Security Market is expected to garner \$7.5 billion by 2020, registering a CAGR of nearly 43% during the forecast period 2015-2020. Mobile security can be defined as the means by which mobile devices such as smartphones, tablets, laptops and others can authenticate users and protect or restrict access to data stored on these devices. This can be done with the use of passwords, personal identification numbers (PINs), pattern screen locks or more advanced forms of authentication such as fingerprint readers, eye scanners and other forms of biometric readers. Advancement in technology in mobile device market concerning storage, performance, application, capability or internet connectivity have tremendously increased over the past few years. Together with its wide range of uses, it has also fostered a growing need for better security and integrity solutions.

Mobile security threats include both physical and software-based threats that can compromise the data stored in smartphones, tablets and other mobile devices. Thus, various security software and hardware solutions such as authentication security, mobile application management and data protection software have been developed by companies. The introduction of BYOD (Bring your own device) policy in various organizations, increasing use of smartphones for conducting day-to-day transactions, rising trend of IoT (Internet of Things), need for data protection and favorable government regulations are major factors triggering the market growth. On the other hand, availability of pirated solutions in the market, deployment cost involved and lack of awareness regarding mobile security systems are likely to restrain the market growth. On the basis of solutions, Asia-Pacific mobile security market is segmented into

authentication, mobile application management and mobile data protection. On the basis of types, the market is segmented into email security and anti-virus. The mobile security market, based on various operating systems is categorized into Android, iOS, Windows, Blackberry and others. Based on the end users, the industry is segmented into individual and enterprise users. Enterprise users segment is further segmented into financial institutions, retail, government, telecommunication and IT, education, manufacturing, automotive, aerospace, defense and intelligence and others. Geographically, the market is segmented into India, Japan, China, Singapore and others (Australia, New Zealand and South Korea).

Leading players and their key business strategies have been analyzed in the report in order to gain a competitive insight into the market. Key players covered in the report include IBM, Symantec Corporation, Kaspersky Lab, VMware Inc., Microsoft Corporation, Google Inc. and others.

KEY BENEFITS

The study provides an in-depth analysis of the mobile security market in Asia-Pacific region with current and future trends to elucidate the imminent investment pockets in the market

Current and future trends have been outlined to determine the overall attractiveness and to single out profitable trends to gain a stronger foothold in the market

The report provides information regarding key drivers, restraints and opportunities with impact analysis

Quantitative analysis of the current market and forecast during the period of 2015-2020 have been provided to highlight the financial appetency of the market

Porter's five forces model analysis of the industry illustrates the potency of buyers and suppliers participating in the market

Value chain analysis in the report provides clear understanding of the roles of stakeholders involved in the value chain

MOBILE SECURITY APAC MARKET KEY SEGMENTATION

By Solution

Authentication

Mobile data protection

Mobile application management

By Type

E-mail

Anti-Virus

By OS

Blackberry

Android

iOS

Windows

Others

By End Users

Individuals

Enterprises

Retail

Telecommunication & IT

Financial Institutions

Education

Government

Aerospace & Defense

Manufacturing & Automotive

Others

By Geography

India

Japan

China

Singapore

Others (Australia, New Zealand and South Korea)

Key Players

International Business Machines (IBM) Corporation

MobileIron

Symantec Corporation

Kaspersky Lab

VMware Inc.

innoPath Software

Microsoft Corporation

Apple Inc.

Intel Corporation,

Google Inc.

Contents

CHAPTER 1 INTRODUCTION

- 1.1 Report description
- 1.2 Key benefits
- 1.3 Key market segmentation
- 1.4 Research methodology
 - 1.4.1 Secondary research
 - 1.4.2 Primary research
 - 1.4.3 Analyst tools and models

CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 Executive summary
- 2.2 CXO perspective
- 2.3 Market beyond: what to expect by 2025
 - 2.3.1 Base case scenario
 - 2.3.2 Optimistic scenario
 - 2.3.3 Critical scenario

CHAPTER 3 MARKET OVERVIEW

- 3.1 Market definition and scope
- 3.2 Key findings
 - 3.2.1 Top factors impacting mobile security market
 - 3.2.2 Top investment pockets
 - 3.2.3 Top winning strategies in the mobile security market
 - 3.2.3.1 Mergers and acquisitions
 - 3.2.3.2 Product innovation
 - 3.2.3.3 Product launch
 - 3.2.3.4 Partnerships and collaborations
 - 3.2.3.5 Expansion in foreign markets
- 3.3 Porters five force analysis
 - 3.3.1 Large number of suppliers present in market, threat of backward integration of buyer and undifferentiated products reduce the bargaining power of supplier
 - 3.3.2 Low switching cost and buyers capable of designing their own security solutions increases the bargaining power of buyers
 - 3.3.3 Lack of availability of substitute that can replace mobile security solutions lowers

the threat of substitution

3.3.4 Low threat of new entrants due to large presence of players offering similar product features at low costs

3.3.5 Numerous competitors, undifferentiated products and low switching cost increase the rivalry within the industry

3.4 Value chain analysis

3.5 Market share analysis, 2014

3.6 Case study

3.7 Market dynamics:

3.7.1 Drivers

3.7.1.1 Increasing adoption of BYOD (Bring Your Own Device)

3.7.1.2 Increasing penetration of smartphones

3.7.1.3 The rising trend of Internet-of-Things (IoT)

3.7.1.4 Government regulations contribute to the growth of APAC mobile security market

3.7.2 Restraints

3.7.2.1 Costs involved in deploying mobile security solutions

3.7.2.2 Easy availability of pirated solutions

3.7.2.3 Lack of awareness about the available mobile security systems

3.7.3 Opportunities

3.7.3.1 Usage of smartwatches

3.7.3.2 Adoption of cloud computing

3.7.3.3 Usage of BCI technology

CHAPTER 4 BY SOLUTION

4.1 Authentication

4.1.1 Key market trends

4.1.2 Key growth factors and opportunities

4.1.3 SIM (Subscriber Identity Module) card authentication

4.1.4 Market size and forecast

4.2 Mobile application management

4.2.1 Key market trends

4.2.2 Key growth factors and opportunities

4.2.3 Market size and forecast

4.3 Mobile data protection

4.3.1 Key market trends

4.3.2 Key growth factors and opportunities

4.3.3 Firewall

4.3.4 Market size and forecast

CHAPTER 5 BY END USER

5.1 Individual users

5.1.1 Market size and forecast

5.2 Enterprise users

5.2.1 Market size and forecast

5.2.2 Financial institutions

5.2.2.1 Market size and forecast

5.2.3 Retail

5.2.3.1 Market size and forecast

5.2.4 Government

5.2.4.1 Market size and forecast

5.2.5 Telecommunication & IT

5.2.5.1 Market size and forecast

5.2.6 Education

5.2.6.1 Market size and forecast

5.2.7 Manufacturing and Automotive

5.2.7.1 Market size and forecast

5.2.8 Aerospace, Defence and Intelligence

5.2.8.1 Market size and forecast

5.2.9 Others

5.2.9.1 Market size and forecast

CHAPTER 6 BY TYPES

6.1 E-mail

6.1.1 Key market trends

6.1.2 Key growth factors and opportunities

6.1.3 Market size and forecast

6.2 Antivirus

6.2.1 Key market trends

6.2.2 Key growth factors and opportunities

6.2.3 Malware removal

6.2.4 Market size and forecast

CHAPTER 7 BY OPERATING SYSTEM

7.1 iOS

7.1.1 Key market trends

7.1.2 Key growth factors and opportunities

7.1.3 Market size and forecast

7.2 Android

7.2.1 Key market trends

7.2.2 Key growth factors and opportunities

7.2.3 Market size and forecast

7.3 Windows

7.3.1 Key market trends

7.3.2 Key growth factors and opportunities

7.3.3 Market size and forecast

7.4 Blackberry

7.4.1 Key market trends

7.4.2 Key growth factors and opportunities

7.4.3 Market size and forecast

7.5 Others

7.5.1 Key market trends

7.5.2 Key growth factors and opportunities

7.5.3 Market size and forecast

CHAPTER 8 BY GEOGRAPHY

8.1 India

8.1.1 Key market trends

8.1.2 Competitive scenario

8.1.3 Key growth factors and opportunities

8.1.4 Market size and forecast

8.2 Japan

8.2.1 Key market trends

8.2.2 Competitive scenario

8.2.3 Key growth factors and opportunities

8.2.4 Market size and forecast

8.3 China

8.3.1 Key market trends

8.3.2 Competitive scenario

8.3.3 Key growth factors and opportunities

8.3.4 Market size and forecast

8.4 Singapore

- 8.4.1 Key market trends
- 8.4.2 Competitive scenario
- 8.4.3 Key growth factors and opportunities
- 8.4.4 Market size and forecast
- 8.5 Others (Australia, New Zealand and South Korea)
 - 8.5.1 Key market trends
 - 8.5.2 Competitive scenario
 - 8.5.3 Key growth factors and opportunities
 - 8.5.4 Market size and forecast

CHAPTER 9 COMPANY PROFILE

- 9.1 INTERNATIONAL BUSINESS MACHINES (IBM) Corporation
 - 9.1.1 Company overview
 - 9.1.2 Company snapshot
 - 9.1.3 Business performance
 - 9.1.4 Strategic moves and developments
 - 9.1.5 SWOT analysis and strategic conclusion of IBM Corporation
- 9.2 MobileIron
 - 9.2.1 Company overview:
 - 9.2.2 Company snapshot
 - 9.2.3 Business performance
 - 9.2.4 Strategic moves and developments
 - 9.2.5 SWOT analysis and strategic conclusion of MobileIron Corporation
- 9.3 Symantec Corporation
 - 9.3.1 Company overview
 - 9.3.2 Company snapshot
 - 9.3.3 Business performance
 - 9.3.4 Strategies moves and developments
 - 9.3.5 SWOT analysis and strategic conclusion of Symantec Corporation
- 9.4 Kaspersky Lab
 - 9.4.1 Company overview
 - 9.4.2 Company snapshot
 - 9.4.3 Strategies moves and developments
 - 9.4.4 SWOT analysis and strategic conclusion of Kaspersky Lab
- 9.5 VMware Inc.
 - 9.5.1 Company overview
 - 9.5.2 Company snapshot
 - 9.5.3 Business performance

9.5.4 Strategic moves and developments

9.5.5 SWOT analysis and strategic conclusion of VMware Inc.

9.6 innoPath Software

9.6.1 Company overview

9.6.2 Company snapshot

9.6.3 Business performance

9.6.4 Strategic moves and developments

9.6.5 SWOT analysis and strategic conclusion of innoPath Software

9.7 MICROSOFT CORPORATION

9.7.1 Company overview

9.7.2 Company snapshot

9.7.3 Business performance

9.7.4 Strategies moves and developments

9.7.5 SWOT analysis and strategic conclusion of Microsoft Corporation

9.8 Apple Inc.

9.8.1 Company overview

9.8.2 Company snapshot

9.8.3 Business performance

9.8.4 Strategic moves and developments

9.8.5 SWOT analysis and strategic conclusion of Apple Inc.

9.9 Intel Corporation

9.9.1 Company overview

9.9.2 Company snapshot

9.9.3 Business performance

9.9.4 Strategic moves and developments

9.9.5 SWOT analysis and strategic conclusion of Intel Corporation

9.10 GOOGLE INC.

9.10.1 Company overview

9.10.2 Company snapshot

9.10.3 Business performance

9.10.4 Strategic moves and developments

9.10.5 SWOT analysis and strategic conclusion of Google Inc.
