Abstracts

Bubble tea, popularly known as boba tea, is a Taiwanese drink invented in Tainan and Taichung in the 1980s. It is prepared with tea or milk as the base component. This tea is glazed with boba, which are soft, chewy, and gummy tapioca pearls extracted from cassava root. Other ingredients, such as jelly and fruit balls, are used to enhance the texture of the tea. Bubble tea is served in a hot or cold form, according to the preference of consumers and a fat straw is used through which the pearls can be easily eaten by consumers. The adoption of bubble tea has been quite high in developed regions such as the U.S., Canada, and Germany, while emerging countries such as China, Brazil, and India are catching up quickly.

The global bubble tea market has witnessed significant growth over the years and is expected to grow at a steady pace during the forecast period. This can be attributed to the growing health awareness and rise in adoption of bubble tea, owing to its health benefits and popularity among health-conscious consumers and young generation. Availability of bubble tea at lower prices and introduction of additional healthy ingredients in it by different market players drive the global bubble tea market growth. In addition, rise in number of vegan people also helps to drive the growth of the market. However, excess sugar content in these drinks lead to health issues and trend of coffee consumption are expected to restrict the market growth. In addition, due to the presence

of artificial preservatives in the bubble tea, consumers are changing their preference toward organic beverages, which hampers the growth of the global bubble tea market. On the contrary, introduction of various new flavors and blends and high demand among young population for a variety of teas are expected to provide lucrative opportunities for the market expansion.

The report segments the global bubble tea market based on base ingredient, flavors, component, and region. By base ingredient, it is divided into black tea, green tea, oolong tea, and white tea. On the basis of flavor, it is categorized into original flavor, coffee flavor, fruit flavor, chocolate flavor, and others. By component, it is classified into flavor, creamer, sweetener, liquid, tapioca pearls, and others. Region wise, it is analyzed across North America, Europe, Asia-Pacific, and LAMEA.
