Abstracts

The global foot massage machine market was valued at \$ 2,155.1 million in 2022 and is projected to reach \$3,767.6 million by 2032, registering a CAGR of 5.8% from 2023 to 2032. Customers may evaluate and acquire foot massager machines online based on their unique demands owing to internet platforms that offer a varied selection of foot massager machines. Multiple product options aid customers in comprehending the numerous benefits provided by the foot massager machine. Online foot massage machines are becoming increasingly popular, allowing people to obtain foot treatment devices from the comfort of their own homes and have them delivered right to their door. During festivals or special days, online platforms provide large discounts and incentives on foot massage machines so that new users can purchase them during sale, and it promotes the sale of foot massagers in the market. Multiple foot massage machines are expensive based on their features, and many customers buy them during online sales and discounts. This increases foot massager machine adoption among new customers. With the help of online platform providers, features such as video demos for machines raise user awareness and give instructions on how to use them. Foot massage machines now include advances such as temperature control, vibration control, bubble jets, and Shiatsu massage to improve

foot treatments. Further, The temperature control option has several benefits, ranging from activating muscles and increasing circulation to reducing tension and discomfort. It promotes quicker injury recovery with procedures such as kneading, pressing, and tapping. Furthermore, vibration control aids in the relaxing of tight muscles and the alleviation of discomfort caused by muscular tightness. To relieve muscle tension and aching feet, a more light or thorough massage might be used. From technology to IoT integration with massage equipment, machines are being improved at a higher level and providing several advantages at the same time, such as foot spa massager that combines water and heat. Owing to technological advancements, portable massage machines, massage guns, and massage chairs have increasingly become popular among customers. Electric foot massagers are highly useful for aged individuals who suffer from muscle & joint discomfort. People are drawn to portable foot massage machines due to the numerous benefits they provide. The foot massage machine market is segmented on the basis of type, price point, distribution channel, end-use, and region. By type, the market is divided into foot massage rollers, air compression massagers, foot spa massagers, warming foot massagers, and others. As per price point, it is categorized into economic, medium, and luxury. According to the distribution channel, it is categorized into hypermarkets & supermarkets, specialty stores, online retail, and other. Depending on end use, it is classified into commercial and household. Region-wise, the market is analyzed across North America (the U.S., Canada, and Mexico), Europe (France, Germany, Italy, Spain, UK, Russia, and rest of Europe), Asia-Pacific (China, Japan, India, South Korea, Thailand, Malaysia, Indonesia and rest of Asia-Pacific), and LAMEA (Brazil, South Africa, Saudi Arabia, UAE, and rest of LAMEA).
