## **Abstracts**

Permanent magnet is an object made up of ferromagnetic material, which has magnetic properties and creates its own magnetic field. Permanent magnet motors are manufactured using permanent magnets in the rotors. Rare earth magnets, made from rare earth metals, are powerful magnets used in PM motors. Unlike electromagnets, permanent magnets do not require continuous electrical energy to maintain their electric field, due to which PM motors are preferred over electromagnetic motors. One of the recent innovations in permanent magnets are the nanocomposite permanent magnets. The use of permanent magnets reduces the size of motors and improves performance, which can be done using nanocomposite permanent magnets. Currently, these magnets are used in magnetic storage media, biomedicine, sensors, pigments and catalysts. Most permanent magnet motors are used in combination with AC or DC electric motors. These type of motors require less power, possess excellent heat dissipation property and performs with higher efficiencies as compared to other electric motors. Permanent magnet motors are used in various industrial applications, in order to improve the efficiencies of the machines. Forklifts, Robots, Blower drives, Railroad (switchers, track, crossing gates), Marine Pumps and Amusement rides, are some of the prime examples

where permanent magnet motors are used. Presently, various advantages of permanent magnets such as operating capabilities at higher temperatures, (due to less rotor losses) and less bearing currents (due to larger air gaps) are driving the permanent magnet motors market. Additionally, permanent magnet synchronous motors have a 30% to 60% higher torque capacity with faster acceleration and deceleration, as compared to asynchronous type motors. On the other hand, high cost of these motors due to limited raw material sources of magnets and complex construction circuitries for some applications limits the use of these motors across various applications. Market players are launching highly efficient and low power consuming devices, to meet the rising demands of consumers. The market is witnessing growing trend of energy efficient motors in all applications. For instance, in 2012, Hitachi launched an 11kW, high efficiency permanent magnet synchronous motor, without the use of conventional materials. This motor is compact in size, offers an operational efficiency of approximately 93% and delivers improved performance of the motor. The efficiency of motors is divided in various efficiency classes namely IE1, IE2, IE3, IE4, where IE4 being highest efficiency and IE1 being lowest.

The global permanent magnet motors market is segmented based on motor type, magnet type, power range, applications and geography. Permanent magnet AC motors (PMAC) are efficient, render precise speed control, has higher power density, and longer bearing & insulation life over AC induction motors. These advantages drive the PMAC motors. Further, Neodymium (NdFeB), Samarium Cobalt (SmCo5 and Sm2Co17) and Ferrite are some major magnet types, discussed in this report. These magnets are used in the motor drives, magnetic pump couplings, generators, sensors, starter motors etc. Amongst all type of permanent magnet, Neodymium is popularly used magnet due to its operating ability at high temperatures and moderate cost. Further, permanent magnet motors, which are used in varied applications with application specific power range, is elaborated. Factory Automation, Consumer, Office automation, commercial, medical, lab equipment and military are some applications where application specific varied range of permanent magnet motors are used. Additionally, the global market is closely examined across North America, Europe, Asia Pacific and LAMEA.

## KEY BENEFITS

The study highlights the global market for permanent magnet motors along with current market conditions and a trend/awareness forecast to forage the prominent investment pockets in the market

The analysis unveils the dominant aspects, viz. upsurge in demand of

permanent magnet motors in industrial and agricultural sectors, which drives the global permanent magnet motor market. Trends of the global market are outlined to determine the overall attractiveness and single out market trends and gain a stronger foothold in the market

A Microscopic analysis of segments is conducted to gauge the potential of the market. These segments, highlight the favorable conditions for the growth of global permanent magnet motor market

Porters five force's model helps in analyzing the potential of buyers & suppliers with a competitive sketch of the market, which helps market players in better decision making.

Value chain analysis of the industry provides a clear view of the key intermediaries involved and elaborates their roles and value addition at every stage in the chain.

## **KEY MARKET SEGMENTS**

### **MARKET BY MOTOR TYPE**

AC motors

DC motors

Hermetic motors

### **MARKET BY MAGNET TYPE**

Neodymium (NdFeB)

Samarium Cobalt (SmCo5 and Sm2Co17)

Ferrite

### **MARKET BY POWER RANGE**

4.0 kW and below

Between 4.0 22.0 kW

Between 22.0 75.0 kW

75.0 kW and above

## MARKET BY APPLICATIONS

Factory Automation

Consumer

Office Automation

Commercial

Lab Equipment

Medical

Military/Aerospace

## MARKET BY GEOGRAPHY

North America

Europe

Asia Pacific

LAMEA

## Contents

### CHAPTER 1 INTRODUCTION

- 1.1 Report description
- 1.2 Key benefits
- 1.3 Key market segments
- 1.4 Research methodology
  - 1.4.1 Secondary research
  - 1.4.2 Primary research
  - 1.4.3 Analyst tools and models

### CHAPTER 2 EXECUTIVE SUMMARY

- 2.1 CXO perspective
- 2.2 Market beyond: what to expect by 2025
  - 2.2.1 Base case scenario
  - 2.2.2 Rapid growth scenario
  - 2.2.3 Critical growth scenario

### CHAPTER 3 MARKET OVERVIEW

- 3.1 Market definition and scope
- 3.2 Single phase motors
- 3.3 Key findings
  - 3.3.1 Top factors impacting market
  - 3.3.2 Top investment pockets
  - 3.3.3 Top winning strategies
- 3.4 Porters five force analysis
  - 3.4.1 Low concentration of Buyers and differentiated products lowers the Bargaining Power of Buyer
  - 3.4.2 Less price sensitive buyers, maximizes the Bargaining power of supplier
  - 3.4.3 Unavailability of substitute for permanent magnet motors in the market lead to no threat of substitute
  - 3.4.4 Fragmented buyers and brand loyalty balances the competitive rivalry in the industry
  - 3.4.5 High Initial Investment lowers the threat of new entrant in the industry
- 3.5 Value chain analysis
- 3.6 Market share analysis, 2013

### 3.7 Case studies

### 3.8 Market dynamics

#### 3.8.1 Drivers

3.8.1.1 Permanent magnet increases the efficiency of motor

3.8.1.2 Low cost permanent magnet reduces the cost of motor

3.8.1.3 Permanent magnet motor help in minimizing the power consumption

3.8.1.4 Rising demand of electric motor in industrial and agricultural sector

3.8.1.5 Widespread awareness of green vehicles amongst customers

#### 3.8.2 Restraints

3.8.2.1 High price of Rare earth magnets

3.8.2.2 Magnets production only in some countries

#### 3.8.3 Opportunities

3.8.3.1 Oil and gas industries

3.8.3.2 Inventions of the rare earth magnets

## **CHAPTER 4 GLOBAL PERMANENT MAGNET MOTOR MARKET BY MOTOR TYPE**

### 4.1 Alternating current (AC) motor

4.1.1 Key market trends

4.1.2 Competitive scenario

4.1.3 Key growth factors and opportunities

4.1.4 Market size and forecast

4.1.5 U.S.

4.1.6 CANADA

4.1.7 Mexico

4.1.8 Rest of North America

4.1.9 Synchronous AC Motor

### 4.2 Direct current (DC)Motor

4.2.1 Key market trends

4.2.2 Competitive scenario

4.2.3 Key growth factors and opportunities

4.2.4 Market size and forecast

4.2.5 U.S.

4.2.6 CANADA

4.2.7 Rest of North America

4.2.8 Brushed DC Motor

4.2.9 Brushless DC Motor

### 4.3 Hermetic motors

4.3.1 Competitive scenario

- 4.3.2 Key growth factors and opportunities
- 4.3.3 Market size and Forecast
- 4.3.4 US
- 4.3.5 Canada
- 4.3.6 Rest of North America

## **CHAPTER 5 GLOBAL PERMANENT MAGNET MOTOR MARKET BY MAGNET TYPE**

- 5.1 Neodymium (NdFeB)
  - 5.1.1 Key market trends
  - 5.1.2 Competitive scenario
  - 5.1.3 Key growth Factors and opportunities
  - 5.1.4 Market size and Forecast
  - 5.1.5 Alternating current (AC) motor
  - 5.1.6 Direct current (DC) Motor
  - 5.1.7 Hermetic Motors
- 5.2 Samarium cobalt (SmCo5 and Sm2Co17)
  - 5.2.1 Key market trends
  - 5.2.2 Competitive scenario
  - 5.2.3 Key growth Factors and opportunities
  - 5.2.4 Market size and forecast
  - 5.2.5 Alternating current (AC) motor
  - 5.2.6 Direct current (DC) Motor
  - 5.2.7 Hermetic Motors
- 5.3 Ferrite
  - 5.3.1 Key market trends
  - 5.3.2 Competitive scenario
  - 5.3.3 Key growth factors and opportunities
  - 5.3.4 Market size and forecast
  - 5.3.5 Alternating Current (AC) motor
  - 5.3.6 Direct Current (DC) Motor
  - 5.3.7 Hermetic Motors

## **CHAPTER 6 GLOBAL PERMANENT MAGNET MOTOR MARKET BY POWER RANGE**

- 6.1 4.0 KW and Below
  - 6.1.1 Market size and forecast

- 6.2 Between 4.0 and 22.0 kW
  - 6.2.1 Market size and forecast
- 6.3 Between 22.0 and 75.0 kW
  - 6.3.1 Market size and forecast
- 6.4 75.0 KW and Above
  - 6.4.1 Market Size and Forecast

## **CHAPTER 7 GLOBAL PERMANENT MAGNET MOTOR MARKET BY APPLICATIONS**

- 7.1 Factory automation
  - 7.1.1 Market Size and Forecast
  - 7.1.2 Machine tool
  - 7.1.3 Motor vehicles
  - 7.1.4 Robotics
  - 7.1.5 Material handling
- 7.2 Consumer
  - 7.2.1 Market Size and Forecast
- 7.3 Office automation
  - 7.3.1 Market Size and Forecast
- 7.4 Commercial
  - 7.4.1 Market size and forecast
- 7.5 Lab equipment
  - 7.5.1 Market size and Forecast
- 7.6 Medical
  - 7.6.1 Market size and forecast
- 7.7 Military /Aerospace:
  - 7.7.1 Market Size and Forecast

## **CHAPTER 8 GLOBAL PERMANENT MAGNET MOTOR MARKET BY GEOGRAPHY**

- 8.1 North America
  - 8.1.1 Key Market Trends
  - 8.1.2 Competitive scenario:
  - 8.1.3 Key growth factors and opportunities:
  - 8.1.4 Market size and forecast
- 8.2 Europe
  - 8.2.1 Key market trends:
  - 8.2.2 Competitive Scenario:

8.2.3 Key growth factors and opportunity:

8.2.4 Market size and forecast

### 8.3 Asia-Pacific

8.3.1 Key market trends

8.3.2 Competitive scenario:

8.3.3 Key growth factors and opportunities:

8.3.4 Market size and forecast

### 8.4 LAMEA

8.4.1 Key market trends

8.4.2 Competitive scenario

8.4.3 Key growth factors and opportunities:

8.4.4 Market size and forecast

## **CHAPTER 9 COMPANY PROFILES**

### 9.1 Baldor Electric Company, Inc.

9.1.1 Company overview

9.1.2 Company Snapshot

9.1.3 Business performance

9.1.4 Strategic moves and development

9.1.5 SWOT analysis Baldor Electric

### 9.2 Siemens

9.2.1 Company overview

9.2.2 Company snapshot

9.2.3 Business performance

9.2.4 SWOT analysis Siemens AG

### 9.3 Rockwell Automation, Inc

9.3.1 Company overview

9.3.2 Company snapshot

9.3.3 Business performance

9.3.4 Strategic moves and development

9.3.5 SWOT analysis Rockwell automation

### 9.4 Franklin Electric Co., Inc.

9.4.1 Company overview

9.4.2 Company snapshot

9.4.3 Business performance

9.4.4 Strategic moves and development

9.4.5 SWOT analysis

### 9.5 Johnson Electric Holdings Ltd.

- 9.5.1 Company overview
- 9.5.2 Company snapshot
- 9.5.3 Business performance
- 9.5.4 Strategic moves and development
- 9.5.5 SWOT analysis Johnson electric
- 9.6 Ametek Inc.
  - 9.6.1 Company overview
  - 9.6.2 Company snapshot
  - 9.6.3 Business performance
  - 9.6.4 SWOT analysis of Ametek, Inc
  - 9.6.5 Swot analysis of Ametek, Inc
- 9.7 Allied Motion Technologies, Inc:
  - 9.7.1 Company overview
  - 9.7.2 Company snapshot
  - 9.7.3 Business performance
  - 9.7.4 SWOT analysis of ALLIED MOTION TECHNOLOGIES
- 9.8 Toshiba Corporation
  - 9.8.1 Company overview
  - 9.8.2 Company Snapshot
  - 9.8.3 Business performance
  - 9.8.4 Strategic Moves and Developments
    - 9.8.4.1 Primary Strategy: Product launch
    - 9.8.4.2 Secondary strategy: partnership
  - 9.8.5 SWOT Analysis and Strategic Conclusion of Toshiba Corp.
- 9.9 Danaher Corporation
  - 9.9.1 Company Overview
  - 9.9.2 Company Snapshot
  - 9.9.3 Business performance
  - 9.9.4 Strategic moves and developments
    - 9.9.4.1 Primary strategy: partnership
    - 9.9.4.2 secondary strategy: product launch
  - 9.9.5 SWOT Analysis and Strategic Conclusion of Danaher Corp.
- 9.10 Autotrol Corporation
  - 9.10.1 Company Overview
  - 9.10.2 Company snapshot
  - 9.10.3 Strategic moves and developments
  - 9.10.4 SWOT Analysis and Strategic Conclusion of Autotrol Corp.
