Abstracts

Golf cart is a type of low-speed vehicle driven by electric motors, which is gas-powered or is specifically envisioned for utilization in golf courses for transportation of golfers and equipment within the course premises. It is also known as non-highway or off-road vehicle with average speed between 25 and 50 kmph.

Increase in urbanization & industrialization; shift toward mall culture; hi-tech & smart residential and commercial housing projects; and rise in utilization of golf cart vehicles in hotels, hospitality, tourism industries, and amusement parks are anticipated to boost growth of the golf cart market globally. Use of golf cart for short trips in educational institutions, such as colleges & universities and in airports are expected to propel demand for golf cart between 2021 and 2028

By region, presently North America dominates the market, followed by Europe, Asia-Pacific, and LAMEA. In North America, the U.S. dominated the global golf cart market in 2020, and is expected to maintain its dominance during the forecast period. Mexico is expected to grow at a significant rate in North America, owing to rise in preference of electric golf carts in the region.
