Vacation Ownership (Timeshare) Industry Market

The vacation ownership (timeshare) industry market was valued at \$12.2 billion in 2023 and is projected to reach \$25.1 billion by 2032, growing at a CAGR of 7.9% from 2024 to 2032.

Vacation ownership (timeshare) is a concept in which individuals own a part of a property for a certain period every year. For the ownership, individuals finance a specific upfront amount along with an annual maintenance charge. The concept of vacation ownership remains significantly prevalent in tourist destinations such as ski resorts, beach resorts, and urban centers. The key advantage of timeshare properties is that they are professionally operated and offer resort-like services to the customers, ensuring comfortable stay.

Increase in the trend of tourism and annual vacations is a major driver of the vacation ownership (timeshare) industry market. In addition, the demand for better amenities and improved vacation experiences is augmenting the development of the vacation ownership industry. The trend of assimilating recreational experiences along with ownership is acquiring traction in recent times. Companies are placing notable efforts to include experiential packages such as adventure activities and wellness retreats

which are anticipated to boost the vacation ownership industry in coming years.

However, the cost of annual maintenance deters several customers, specifically from the low-income segment, from investing in the vacation ownership industry. This limits the growth of the market. Furthermore, the presence of alternatives such as Airbnb and Vrbo offers customers the flexibility to explore new locations each year, hence restraining the development of the market. Despite the restraints, the vacation ownership (timeshare) industry market is poised for a bright future. According to the annual State of the Vacation Ownership Industry report by American Resort Development Association, the industry witnessed a sales volume of \$11 billion in 2023, which was slightly higher from the previous year. The report predicts an optimistic future for the vacation ownership industry owing to the strong sales and growing occupancy rates.

Segment Review

The vacation ownership (timeshare) industry market is segmented into type, tour type, tourist type, and region. On the basis of type, the market is divided into fixed week, floating week, and point-based week. Depending on tour type, it is bifurcated into domestic and international. As per tourist type, it is classified into independent traveler and tour group. Region wise, it is analyzed across North America, Europe, Asia-Pacific, Latin America, and Middle East & Africa.

Key Findings

On the basis of type, the fixed week segment held the highest market share in 2023.

Depending on tour type, the domestic segment was the highest shareholder in 2023.

As per tourist type, the tour group segment acquired a high stake in the market in 2023.

Region wise, Asia-Pacific was the highest revenue generator in 2023.
