Abstracts

This study focuses on China's Silicone industry forecasts. In the two past decades, the industry has been growing at a fast pace. The dramatic expansions of the manufacturing capabilities and rising consumer consumptions in China have transformed China's society and economy. China is one of the world's major producers for industrial and consumer products. Far outpacing other economies in the world, China is the world's fastest growing market for the consumptions of goods and services. The Chinese economy maintains a high speed growth which has been stimulated by the consecutive increases of industrial output, imports & exports, consumer consumption and capital investment for over two decades. Rapid consolidation between medium and large players is anticipated since the Chinese government has been encouraging industry consolidation with an effort to regulate the industry and to improve competitiveness in the world market.

Although China has enjoyed the benefits of an expanding market for production and distribution, the industry is suffering from minimal innovation and investment in R&D and new product development. The sector's economies of scale have yet to be achieved. Most domestic manufacturers lack the autonomic intellectual property and financial resources to develop their own brand name products.

This new study focuses on industry trends and forecasts with historical data (2013, 2018 and 2023) and long-term forecasts through 2028 and 2033 are presented. The primary and secondary research is done in China in order to access up-to-date government regulations, market information and industry data. Data were collected from the Chinese government publications, Chinese language newspapers and magazines, industry associations, local governments' industry bureaus, industry publications, and our in-house databases.

Asia Market Info & Dev Co. is one of the leading sources for up-to-date market

information and research on the fastest-growing Chinese markets. We have published over 1,500 reports focusing on the Chinese markets, industry forecasts and company profiles. We provide hard-to-find market data and analyses. Our publications are intended to help international marketers identify business opportunities and promote their product sales in the Chinese markets.

Overview

Silicone Rubber Production and Demand

Methyl-Vinyl Silicone Rubber

High-Temperature-Vulcanized mixing Silicone rubber

Methyl RTV Silicone rubber (107)

Methyl-Vinyl Silicone Rubber, (110)

Bicomponent Silicone rubber, RTV-2

Silicone rubber mixings

Methyl-Vinyl Silicone Rubber mixing

Insulated Silicone Rubber

Fluoro-Silicone Rubber

Monocomponent RTV Silicone Rubber, (RTV-1)

Liquid Silicone Rubber, (LSR)

Methyl Silicone Rubber,
RTV-106
Silicone oil
Overview
Silicone Oil Production and Demand
Dimethyl silicone oil
Hydroxy Silicone Oil Emulsion
Dimethyl Hydroxy Silicone oil
Hydrophilie Silicone Oil
Vinyl Silicone Oil
Methyl hydro Silicone Oil
Methyl phenyl Silicone Oil
Flexible Polyurethane Foam Silicone oil (DH-301)
Polyether Silicone Oil
Atomization Silicone Oil
Fluoro Silicone Oil
Epoxy Silicone Oil
Ultra-high Vacuum Diffusion Pump Silicone Oil (275)
Silicone Silane
Overview
Silicone Silane Production and Demand
Amino Silane
Epoxy Silane
Vinyl Silane
Methacryl Silane
Mercapto Silane
Crosslink Silane
Intermediate Silane
Other Silane
Silicone resin
Overview
Silicone Resin Production and Demand
Methyl Silicone Resin
Methyl Phenyl Silicone Resin
