Abstracts

The report titled “Indonesia Construction Equipment Industry Outlook to 2017 – Hydraulic Excavators and Earthmoving Equipments Gaining Traction” provides a comprehensive analysis of the various aspects such as the market size of the Indonesia construction equipment and segments such as earthmoving and tunneling equipment, mining equipment, building construction equipments, road construction equipment, building material equipment, industry and future outlook of the industry. The report also covers the market shares of major players in Indonesia in excavators, loaders, bulldozers and trucks category

Contents

1. INDONESIA CONSTRUCTION EQUIPMENT MARKET INTRODUCTION

- 1.1. Indonesia Construction Equipment Market Value Chain
- 1.2. Role of Government in Construction Industry

2. INDONESIA CONSTRUCTION EQUIPMENT MARKET SIZE

- 2.1. By Revenues, 2006-2012
- 2.2. By Quantity, 2006-2012

3. INDONESIA CONSTRUCTION EQUIPMENT MARKET SEGMENTATION, 2006-2012

- 3.1. By Production of Different Equipments, 2006-2012
- 3.2. By Revenues From Different Equipments, 2006-2012

4. INDONESIA EARTHMOVING AND TUNNELING EQUIPMENT MARKET INTRODUCTION AND SIZE, 2006-2012

- 4.1. Indonesia Earthmoving and Tunneling Equipment Market Segmentation by Equipments, 2006-2012
 - 4.1.1. Indonesia Earthmoving Equipment Market Segmentation by Equipments, 2006-2012
 - 4.1.2. Indonesia Tunneling Equipment Market Segmentation by Equipments, 2006-2012
- 4.2. Indonesia Earthmoving and Tunneling Equipment Market Imports, 2008-2012
- 4.3. Indonesia Earthmoving and Tunneling Equipment Market Exports, 2008-2012
- 4.4. Earthmoving and Tunneling Equipment Market Trends and Developments
 - Ingress of High Performance Excavators
 - Increasing Exports of Boring and Sinking Machines
 - Declining Demand of Dump Trucks
 - Growing Number of Rental Solutions Providers in Indonesia

5. INDONESIA MINING EQUIPMENT MARKET INTRODUCTION AND SIZE, 2006-2012

- 5.1. Indonesia Mining Equipment Market Segmentation by Equipments, 2006-2012

- 5.2. Indonesia Mining Equipment Market Imports, 2008-2012
- 5.3. Indonesia Mining Equipment Market Exports, 2008-2012
- 5.4. Indonesia Mining Equipments Market Trends and Developments
 - Government Regulations Hampering Mining Activities
 - Increasing Number of Manufacturers Foraying in Mining Equipments Market
 - Strong Impacts on Tourism Industry
 - Augmented Demand for Coal and Other Primary Commodities
 - Increasing Utility of Hydraulic Excavators in Mining Activities

6. INDONESIA BUILDING CONSTRUCTION EQUIPMENT MARKET AND SIZE, 2006-2012

- 6.1. Indonesia Building Construction Equipment Market Segmentation by Equipments, 2006-2012
 - 6.1.1. Indonesia Cranes and Lifting Equipment Market Segmentation by Equipments, 2006-2012
 - 6.1.2. Indonesia Mobile and Site Based Equipment Market Segmentation, 2006-2012
- 6.2. Indonesia Building Construction Equipment Market Imports, 2008-2012
- 6.3. Indonesia Building Construction Equipment Market Exports
- 6.4. Indonesia Building Construction Equipment Market Trends and Developments
 - Increasing Non-Residential Construction Driving Demand
 - Rising Focus on Energy Efficiency of Equipments
 - Increasing Use of Technology in Building Construction Equipments

7. INDONESIA BUILDING MATERIAL EQUIPMENT INTRODUCTION AND SIZE, 2006-2012

- 7.1. Indonesia Building Material Equipment Market Segmentation by Equipments, 2006-2012
 - 7.1.1. Indonesia Concrete and Cement Material Equipment Market Segmentation by Equipments, 2006-2012
 - 7.1.2. Indonesia Aggregate Equipment Market Segmentation by Equipments, 2006-2012
- 7.2. Indonesia Building Material Equipment Market Imports, 2008-2012
- 7.3. Indonesia Building Material Equipment Market Exports, 2008-2012
- 7.4. Indonesia Building Material Equipment Market Trends and Developments
 - Increasing Usage of Prefabricated Concrete Equipments in Construction Activities
 - Increasing Domestic Production of Cement Batching Plants

8. INDONESIA ROAD CONSTRUCTION EQUIPMENT INTRODUCTION AND SIZE, 2006-2012

8.1. Indonesia Road Construction Equipment Market Segmentation by Equipments, 2006-2012

8.1.1. Indonesia Rolling and Paving Equipment Market Segmentation by Equipments, 2006-2012

8.1.2. Indonesia Compaction Equipment Market Segmentation by Equipments, 2006-2012

8.2. Indonesia Road Construction Equipment Market Imports, 2008-2012

8.3. Indonesia Road Construction Equipment Market Exports, 2008-2012

8.4. Indonesia Road Construction Equipment Market Trends and Developments

Increasing Prices of Asphalt Promoting Rental Solutions

Rising Urbanization in Indonesia

Increasing Demand of Paving Equipments Driving Growth

9. MARKET SHARE OF MAJOR PLAYERS IN INDONESIA CONSTRUCTION EQUIPMENTS MARKET

9.1. By Overall Construction Equipment Industry, 2012

9.2. By Mining Equipment Industry, 2012

9.3. By Excavators, 2012

9.4. By Loaders, 2012

9.5. By Bulldozers, 2012

9.6. By Trucks, 2012

10. INDONESIA CONSTRUCTION EQUIPMENT MARKET COMPANY PROFILES

10.1. PT Komastu Indonesia (PT United Tractors)

10.1.1. Company Overview

10.1.2. Company Financials, 2006-2012

10.1.3. Business Strategies

Increasing Focus on remanufacturing and Reconditioning of Construction Machinery

Increasing Mining Contracting Business Operations

Focussing on Increasing Production of Hydraulic Excavators

10.2. PT Hexindo Adiperkasa Tbk (Hitachi Limited)

10.2.1. Company Overview

10.2.2. Business Strategies

Increased Focus on Developing Efficient Supply Chain

Ingress of Next Generation Ultra-Large Excavators

Key Focus on Mining Equipments

10.3. PT Trakindo Utama (Caterpillar Inc.)

10.3.1. Company Overview

10.3.2. Business Strategies

Expanding Manufacturing Capacity in Domestic Market

Ingress of Rental Stores

Increasing Production Capacity For Trucks and Dozers, Focussing Plantation

Business

10.4. PT Daya Kobelco Construction Machinery Indonesia (Kobelco Inc.)

10.4.1. Company Overview

10.4.2. Business Strategies

Focussing on Manufacturing Hydraulic Excavators

Increasing Establishments for Used Equipments

11. INDONESIA CONSTRUCTION EQUIPMENT MARKET FUTURE OUTLOOK AND PROJECTIONS, 2013-2017

12. MACROECONOMIC FACTORS AFFECTING INDONESIA CONSTRUCTION EQUIPMENT MARKET

12.1. Population of Indonesia, 2006-2017

12.2. Personal Disposable Incomes in Indonesia, 2006-2017

12.3. Market Size of Indonesia Construction Industry, 2006-2017

12.4. Government Investments In Infrastructure, 2006-2017

12.5. Consumption of Steel in Indonesia, 2006-2017

12.6. Production of Coal in Indonesia, 2006-2017

13. APPENDIX

13.1. Market Definitions

13.2. Abbreviations

13.3. Research Methodology

Data Collection Methods

Approach

Variables (Dependent and Independent)

Final Conclusion

13.4. Disclaimer

About

The report titled “Indonesia Construction Equipment Industry Outlook to 2017 – Hydraulic Excavators and Earthmoving Equipments Gaining Traction” provides a comprehensive analysis of the various aspects such as the market size of the Indonesia construction equipment and segments such as earthmoving and tunneling equipment, mining equipment, building construction equipments, road construction equipment, building material equipment, industry and future outlook of the industry. The report also covers the market shares of major players in Indonesia in excavators, loaders, bulldozers and trucks category.

The construction equipment industry has showcased a stupendous progress over the period of 2006-2012. The growth of the construction equipment market in Indonesia has been driven by a number of factors. The increasing demand for the residential buildings augmented by growing population has been a major growth driver for the revenues of the construction equipment industry. This boom in realty sector has hugely impelled the demand for concrete and building construction equipments. Additionally, surging disposable incomes in the country have provided a strong impetus towards materializing of the luxury projects such as penthouses, villas and others. Moreover, a substantial growth in the urban population of the country has encouraged organized retail culture in Indonesia.

The increasing initiatives of the government in the field of construction have provided a strong impetus to the growth of construction equipment market over the past few years. The Government of Indonesia introduced “MP3EI” plans for the period of 2011-2025 targeted at the improvement of infrastructure scenario of the country, which had a budget of USD ~ billion. In totality, government has identified 21 major construction projects which will change the infrastructural face of the country in the upcoming years. The aforementioned proposed projects will fuel the demand for road construction and concrete material equipments in the upcoming years in Indonesia.

Indonesia construction equipments market features a highly concentrated landscape, with market shares being majorly distributed amongst five leading players that held a 93.3% share of the total construction equipment market revenues in 2012. The market is marked by the presence of the several international players such as Caterpillar, Komatsu Limited, Kobelco Inc. and others, which have substantially expanded their business arms in Indonesian geography, accounting for a large proportion of the market share in construction equipment market.

The construction equipment market is expected to showcase an upward growth trend in the upcoming years. Owing to the increasing rate of urbanization in the country, the realty sector is expected to witness a flourishing growth. This strong wave of growth experienced by the residential construction sector is expected lead to a rapid increase in the revenues of building construction and building material equipments in forthcoming years. Revenues from the construction equipment industry in Indonesia are expected to expand to USD ~ million in FY'2017, growing with a CAGR of 11.5% from FY'2012 to FY'2017.
