Abstracts

The report titled “North America Biofuel Market Outlook to 2016 – Surging Demand in Aviation Sector” provides a comprehensive analysis of market size of global and North America biofuel industry, market segmentation of North America biofuel industry by fuel ethanol and bio diesel. The report also entails value chain of fuel ethanol and bio diesel production. The report also provides profile of major players operating in the biofuel industry.

North America

The biofuel market in North America is one of the predominant markets in the global biofuel industry. The North America biofuel market is dominantly held by the US with a share of approximately ~% in 2011 and rest of the share is being contributed by Canada.

The North America biofuel market has been dominated by fuel ethanol in both production and consumption from 2005-2011 with the US being the largest ethanol producer in the world. The fuel ethanol production and consumption has witnessed an increase from 2005-2011 on account of surging mandate blending rate of fuel ethanol in the petroleum oil. However, 90% of ethanol in the region is mainly produced from corn which has an important impact on the price of the crop. In 2004, the prices of the corn were USD 95 per tonne which have reached to USD ~ per tonne in the first half of 2012, showcasing an increase of ~%.

The US

Biofuels have become a leading alternative to fossil fuels in the US as it can be

produced domestically. In addition, it also offers a partial solution to global climate change and has the potential to encourage the rural development in the country. The biofuel industry in the US grew at a CAGR of 21.7% from the period 2006-2011. The market in the US increased by 2.8% in 2011 to USD ~ million due to rise in the government mandate blending rate targets.

The country biofuel production has been growing steadily in the last six years from 260.7 thousand barrels per day in 2006 to ~ thousand barrels per day in 2011. The industry has witnessed tough times when the crude oil prices were low, corn and other food based feedstock prices were high or both. In the US, there are ~ ethanol plants with a production capacity of ~ million gallons per year operating in 29 states while around 10 ethanol plants are under construction with a capacity of ~ million gallons per year in 2011. The bio diesel production capacity registered in 2011 was approximately ~ million gallons per year.

Canada

Canada bio diesel industry is in an early development stage. The lack of bio diesel production in some provinces indicated that the British Columbia fuel policies to lower greenhouse gas emissions by 33% till 2020 by using renewable energy seems to be unrealized. The imports are expected to increase in the country in order to fill the gap between the domestic production and the required volume of bio diesel needed to meet the federal mandate target in the short term.

The country has observed an incline in the imports of bio diesel from ~ million liters in 2010 to ~ million liters in 2011 on account of shortage in the domestic bio diesel production. In 2011, Canada produces approximately ~thousand barrels per day of bio diesel which just covers 34% of the total bio diesel consumption.

Key Topics Covered in the Report:

The market size of global biofuel industry and the contribution of Regions.

The market size of North America biofuel Industry.

The market size of the biofuel market on the basis of revenue, production and consumption in the countries such as the US and Canada.

Value Chain of fuel ethanol and bio diesel production

Market segmentation of biofuel markets on the basis of fuel ethanol and bio diesel.

Trends and Development of North America biofuel market.

Company profile of the major producers of biofuel in North America

Future outlook and projections of global and North America biofuel market

Microeconomics and industry factors including total vehicle in use in North America, carbon dioxide gas emission and North America population, 2005-2016

Contents

1. GLOBAL BIOFUEL INDUSTRY INTRODUCTION

2. GLOBAL BIOFUEL MARKET SIZE BY VALUE, 2006-2011

3. GLOBAL BIOFUEL MARKET SIZE BY PRODUCTION AND CONSUMPTION, 2005-2011

4. Global Biofuel Market Segmentation

4.1. By Regions, 2005-2011

5. NORTH AMERICA BIOFUEL INDUSTRY

5.1. North America Biofuel Market Size by Value, 2006-2011

5.2. North America Biofuel Market Size by Production and Consumption, 2005-2011

5.3. North America Biofuel Production Value Chain

5.3.1. Ethanol Production Value Chain

5.3.2. Bio Diesel Production Value Chain

5.4. North America Biofuel Market Segmentation

5.4.1. By Geography, 2005-2011

5.4.2. By Fuel Ethanol and Bio Diesel, 2005-2011

5.5. The US Biofuel Industry

5.5.1. The US Biofuel Market Size by value, 2006-2011

5.5.2. The US Biofuel Market Size by Production and Consumption, 2005-2011

5.5.3. The US fuel Ethanol Imports and Exports, 2005-2011

5.5.4. The US Bio Diesel Imports and Exports, 2005-2011

5.5.5. The US Biofuel Market Segmentation

5.5.5.1. By Fuel Ethanol and Bio Diesel, 2005-2011

5.5.6. The US Biofuel industry Future Projections

5.5.6.1. By Value, 2012-2016

5.5.6.2. By Fuel Ethanol and Bio Diesel, 2012-2016

5.6. Canada Biofuel Industry

5.6.1. Canada Biofuel Market Size by Production and Consumption, 2005-2011

5.6.2. Canada Fuel Ethanol Imports and Exports, 2007-2011

5.6.3. Canada Bio Diesel Imports and Exports, 2007-2011

5.6.4. Canada Biofuel Market Segmentation

5.6.4.1. By Fuel Ethanol and Bio Diesel, 2005-2011

5.6.5. Canada Biofuel industry Future Projections

5.6.5.1. By Fuel Ethanol and Bio Diesel, 2012-2016

6. NORTH AMERICA BIOFUEL INDUSTRY TRENDS AND DEVELOPMENTS

Rising Utilization of Biofuel in the Aviation Sector

Introduction of Third Generation Biofuels

Rising Investment in the Research and Development

Increasing Government Blending Rate Targets

7. GLOBAL BIOFUEL INDUSTRY FUTURE OUTLOOK

7.1. Global Biofuel Industry Future Projections

7.1.1. By Regions, 2012-2016

8. NORTH AMERICA BIOFUEL INDUSTRY FUTURE OUTLOOK

8.1. Cause and Effect Relationship Between Dependent and Independent Factors
Prevailing in North America Biofuel Market

8.2. North America Biofuel Industry Future Projections

8.2.1. By Value, 2012-2016

8.2.2. By Fuel Ethanol and Bio Diesel, 2012-2016

9. COMPANY PROFILE OF MAJOR PLAYERS IN NORTH AMERICA BIOFUEL INDUSTRY

9.1. POET

9.1.1. Company Overview

9.1.2. Business Strategy

9.2. Archer-Daniels-Midland

9.2.1. Company Overview

9.2.2. Business Strategy

9.3. Abengoa Bioenergy

9.3.1. Company Overview

9.3.2. Business Strategy

9.3.3. Operating Performance

10. NORTH AMERICA BIOFUEL INDUSTRY MACRO-ECONOMIC INDICATORS: HISTORICAL AND PROJECTIONS

- 10.1. Total Vehicle in Use, 2005-2016
- 10.2. Carbon Dioxide Gas Emission, 2005-2016
- 10.3. North America Population, 2005-2016

11. APPENDIX

- 11.1. Market Definitions
- 11.2. Abbreviations
- 11.3. Research Methodology
 - Data Collection Methods
 - Approach
 - Variables (Dependent and Independent)
 - Multi Factor Based Sensitivity Model
 - Final Conclusion
- 11.4. Disclaimer
