

Automotive Power Management IC Industry Research Report 2024

<https://marketpublishers.com/r/A9740E7E8749EN.html>

Date: February 2024

Pages: 91

Price: US\$ 2,950.00 (Single User License)

ID: A9740E7E8749EN

Abstracts

This report aims to provide a comprehensive presentation of the global market for Automotive Power Management IC, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Automotive Power Management IC.

The Automotive Power Management IC market size, estimations, and forecasts are provided in terms of output/shipments (M Units) and revenue (\$ millions), considering 2023 as the base year, with history and forecast data for the period from 2019 to 2030. This report segments the global Automotive Power Management IC market comprehensively. Regional market sizes, concerning products by types, by application, and by players, are also provided. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Automotive Power Management IC manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, production, and average price for the overall market and the sub-segments across the different segments, by company, product type, application, and regions.

Key Companies & Market Share Insights

In this section, the readers will gain an understanding of the key players competing.

This report has studied the key growth strategies, such as innovative trends and developments, intensification of product portfolio, mergers and acquisitions, collaborations, new product innovation, and geographical expansion, undertaken by these participants to maintain their presence. Apart from business strategies, the study includes current developments and key financials. The readers will also get access to the data related to global revenue, price, and sales by manufacturers for the period 2019-2024. This all-inclusive report will certainly serve the clients to stay updated and make effective decisions in their businesses. Some of the prominent players reviewed in the research report include:

Texas Instruments

Maxim

STMicroelectronics

NXP Semiconductors

Cypress

Dialog

Toshiba

ROHM

Renesas

Allegro MicroSystems

Richtek

Product Type Insights

Global markets are presented by Automotive Power Management IC type, along with growth forecasts through 2030. Estimates on production and value are based on the price in the supply chain at which the Automotive Power Management IC are procured by the manufacturers.

This report has studied every segment and provided the market size using historical data. They have also talked about the growth opportunities that the segment may pose in the future. This study bestows production and revenue data by type, and during the historical period (2019-2024) and forecast period (2025-2030).

Automotive Power Management IC segment by Type

Discrete Type

Highly Integrated Type

Application Insights

This report has provided the market size (production and revenue data) by application, during the historical period (2019-2024) and forecast period (2025-2030).

This report also outlines the market trends of each segment and consumer behaviors impacting the Automotive Power Management IC market and what implications these may have on the industry's future. This report can help to understand the relevant market and consumer trends that are driving the Automotive Power Management IC market.

Automotive Power Management IC segment by Application

Passenger Vehicle

Commercial Vehicle

Regional Outlook

This section of the report provides key insights regarding various regions and the key players operating in each region. Economic, social, environmental, technological, and political factors have been taken into consideration while assessing the growth of the particular region/country. The readers will also get their hands on the revenue and sales data of each region and country for the period 2019-2030.

The market has been segmented into various major geographies, including North America, Europe, Asia-Pacific, South America. Detailed analysis of major countries such as the USA, Germany, the U.K., Italy, France, China, Japan, South Korea, Southeast Asia, and India will be covered within the regional segment. For market estimates, data are going to be provided for 2023 because of the base year, with estimates for 2024 and forecast value for 2030.

North America

U.S.

Canada

Europe

Germany

France

U.K.

Italy

Russia

Asia-Pacific

China

Japan

South Korea

India

Australia

China Taiwan

Indonesia

Thailand

Malaysia

Latin America

Mexico

Brazil

Argentina

Key Drivers & Barriers

High-impact rendering factors and drivers have been studied in this report to aid the readers to understand the general development. Moreover, the report includes restraints and challenges that may act as stumbling blocks on the way of the players. This will assist the users to be attentive and make informed decisions related to business. Specialists have also laid their focus on the upcoming business prospects.

COVID-19 and Russia-Ukraine War Influence Analysis

The readers in the section will understand how the Automotive Power Management IC market scenario changed across the globe during the pandemic, post-pandemic and Russia-Ukraine War. The study is done keeping in view the changes in aspects such as demand, consumption, transportation, consumer behavior, supply chain management, export and import, and production. The industry experts have also highlighted the key factors that will help create opportunities for players and stabilize the overall industry in the years to come.

Reasons to Buy This Report

This report will help the readers to understand the competition within the industries and strategies for the competitive environment to enhance the potential profit. The report also focuses on the competitive landscape of the global Automotive Power Management IC market, and introduces in detail the market share, industry ranking,

competitor ecosystem, market performance, new product development, operation situation, expansion, and acquisition. etc. of the main players, which helps the readers to identify the main competitors and deeply understand the competition pattern of the market.

This report will help stakeholders to understand the global industry status and trends of Automotive Power Management IC and provides them with information on key market drivers, restraints, challenges, and opportunities.

This report will help stakeholders to understand competitors better and gain more insights to strengthen their position in their businesses. The competitive landscape section includes the market share and rank (in volume and value), competitor ecosystem, new product development, expansion, and acquisition.

This report stays updated with novel technology integration, features, and the latest developments in the market

This report helps stakeholders to understand the COVID-19 and Russia-Ukraine War Influence on the Automotive Power Management IC industry.

This report helps stakeholders to gain insights into which regions to target globally

This report helps stakeholders to gain insights into the end-user perception concerning the adoption of Automotive Power Management IC.

This report helps stakeholders to identify some of the key players in the market and understand their valuable contribution.

Core Chapters

Chapter 1: Research objectives, research methods, data sources, data cross-validation;

Chapter 2: Introduces the report scope of the report, executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the market and its likely evolution in the short to mid-term, and long term.

Chapter 3: Detailed analysis of Automotive Power Management IC manufacturers

competitive landscape, price, production and value market share, latest development plan, merger, and acquisition information, etc.

Chapter 4: Provides profiles of key players, introducing the basic situation of the main companies in the market in detail, including product production/output, value, price, gross margin, product introduction, recent development, etc.

Chapter 5: Production/output, value of Automotive Power Management IC by region/country. It provides a quantitative analysis of the market size and development potential of each region in the next six years.

Chapter 6: Consumption of Automotive Power Management IC in regional level and country level. It provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and production of each country in the world.

Chapter 7: Provides the analysis of various market segments by type, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 8: Provides the analysis of various market segments by application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 9: Analysis of industrial chain, including the upstream and downstream of the industry.

Chapter 10: Introduces the market dynamics, latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 11: The main points and conclusions of the report.

Contents

1 PREFACE

- 1.1 Scope of Report
- 1.2 Reasons for Doing This Study
- 1.3 Research Methodology
- 1.4 Research Process
- 1.5 Data Source
 - 1.5.1 Secondary Sources
 - 1.5.2 Primary Sources

2 MARKET OVERVIEW

- 2.1 Product Definition
- 2.2 Automotive Power Management IC by Type
 - 2.2.1 Market Value Comparison by Type (2019 VS 2023 VS 2030) & (US\$ Million)
 - 1.2.2 Discrete Type
 - 1.2.3 Highly Integrated Type
- 2.3 Automotive Power Management IC by Application
 - 2.3.1 Market Value Comparison by Application (2019 VS 2023 VS 2030) & (US\$ Million)
 - 2.3.2 Passenger Vehicle
 - 2.3.3 Commercial Vehicle
- 2.4 Global Market Growth Prospects
 - 2.4.1 Global Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)
 - 2.4.2 Global Automotive Power Management IC Production Capacity Estimates and Forecasts (2019-2030)
 - 2.4.3 Global Automotive Power Management IC Production Estimates and Forecasts (2019-2030)
 - 2.4.4 Global Automotive Power Management IC Market Average Price (2019-2030)

3 MARKET COMPETITIVE LANDSCAPE BY MANUFACTURERS

- 3.1 Global Automotive Power Management IC Production by Manufacturers (2019-2024)
- 3.2 Global Automotive Power Management IC Production Value by Manufacturers (2019-2024)

3.3 Global Automotive Power Management IC Average Price by Manufacturers (2019-2024)

3.4 Global Automotive Power Management IC Industry Manufacturers Ranking, 2022 VS 2023 VS 2024

3.5 Global Automotive Power Management IC Key Manufacturers, Manufacturing Sites & Headquarters

3.6 Global Automotive Power Management IC Manufacturers, Product Type & Application

3.7 Global Automotive Power Management IC Manufacturers, Date of Enter into This Industry

3.8 Global Automotive Power Management IC Market CR5 and HHI

3.9 Global Manufacturers Mergers & Acquisition

4 MANUFACTURERS PROFILED

4.1 Texas Instruments

4.1.1 Texas Instruments Automotive Power Management IC Company Information

4.1.2 Texas Instruments Automotive Power Management IC Business Overview

4.1.3 Texas Instruments Automotive Power Management IC Production, Value and Gross Margin (2019-2024)

4.1.4 Texas Instruments Product Portfolio

4.1.5 Texas Instruments Recent Developments

4.2 Maxim

4.2.1 Maxim Automotive Power Management IC Company Information

4.2.2 Maxim Automotive Power Management IC Business Overview

4.2.3 Maxim Automotive Power Management IC Production, Value and Gross Margin (2019-2024)

4.2.4 Maxim Product Portfolio

4.2.5 Maxim Recent Developments

4.3 STMicroelectronics

4.3.1 STMicroelectronics Automotive Power Management IC Company Information

4.3.2 STMicroelectronics Automotive Power Management IC Business Overview

4.3.3 STMicroelectronics Automotive Power Management IC Production, Value and Gross Margin (2019-2024)

4.3.4 STMicroelectronics Product Portfolio

4.3.5 STMicroelectronics Recent Developments

4.4 NXP Semiconductors

4.4.1 NXP Semiconductors Automotive Power Management IC Company Information

4.4.2 NXP Semiconductors Automotive Power Management IC Business Overview

- 4.4.3 NXP Semiconductors Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
- 4.4.4 NXP Semiconductors Product Portfolio
- 4.4.5 NXP Semiconductors Recent Developments
- 4.5 Cypress
 - 4.5.1 Cypress Automotive Power Management IC Company Information
 - 4.5.2 Cypress Automotive Power Management IC Business Overview
 - 4.5.3 Cypress Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
 - 4.5.4 Cypress Product Portfolio
 - 4.5.5 Cypress Recent Developments
- 4.6 Dialog
 - 4.6.1 Dialog Automotive Power Management IC Company Information
 - 4.6.2 Dialog Automotive Power Management IC Business Overview
 - 4.6.3 Dialog Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
 - 4.6.4 Dialog Product Portfolio
 - 4.6.5 Dialog Recent Developments
- 4.7 Toshiba
 - 4.7.1 Toshiba Automotive Power Management IC Company Information
 - 4.7.2 Toshiba Automotive Power Management IC Business Overview
 - 4.7.3 Toshiba Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
 - 4.7.4 Toshiba Product Portfolio
 - 4.7.5 Toshiba Recent Developments
- 4.8 ROHM
 - 4.8.1 ROHM Automotive Power Management IC Company Information
 - 4.8.2 ROHM Automotive Power Management IC Business Overview
 - 4.8.3 ROHM Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
 - 4.8.4 ROHM Product Portfolio
 - 4.8.5 ROHM Recent Developments
- 4.9 Renesas
 - 4.9.1 Renesas Automotive Power Management IC Company Information
 - 4.9.2 Renesas Automotive Power Management IC Business Overview
 - 4.9.3 Renesas Automotive Power Management IC Production, Value and Gross Margin (2019-2024)
 - 4.9.4 Renesas Product Portfolio
 - 4.9.5 Renesas Recent Developments

4.10 Allegro MicroSystems

4.10.1 Allegro MicroSystems Automotive Power Management IC Company Information

4.10.2 Allegro MicroSystems Automotive Power Management IC Business Overview

4.10.3 Allegro MicroSystems Automotive Power Management IC Production, Value and Gross Margin (2019-2024)

4.10.4 Allegro MicroSystems Product Portfolio

4.10.5 Allegro MicroSystems Recent Developments

7.11 Richtek

7.11.1 Richtek Automotive Power Management IC Company Information

7.11.2 Richtek Automotive Power Management IC Business Overview

4.11.3 Richtek Automotive Power Management IC Production, Value and Gross Margin (2019-2024)

7.11.4 Richtek Product Portfolio

7.11.5 Richtek Recent Developments

5 GLOBAL AUTOMOTIVE POWER MANAGEMENT IC PRODUCTION BY REGION

5.1 Global Automotive Power Management IC Production Estimates and Forecasts by Region: 2019 VS 2023 VS 2030

5.2 Global Automotive Power Management IC Production by Region: 2019-2030

5.2.1 Global Automotive Power Management IC Production by Region: 2019-2024

5.2.2 Global Automotive Power Management IC Production Forecast by Region (2025-2030)

5.3 Global Automotive Power Management IC Production Value Estimates and Forecasts by Region: 2019 VS 2023 VS 2030

5.4 Global Automotive Power Management IC Production Value by Region: 2019-2030

5.4.1 Global Automotive Power Management IC Production Value by Region: 2019-2024

5.4.2 Global Automotive Power Management IC Production Value Forecast by Region (2025-2030)

5.5 Global Automotive Power Management IC Market Price Analysis by Region (2019-2024)

5.6 Global Automotive Power Management IC Production and Value, YOY Growth

5.6.1 North America Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)

5.6.2 Europe Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)

5.6.3 China Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)

5.6.4 Japan Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)

5.6.5 South Korea Automotive Power Management IC Production Value Estimates and Forecasts (2019-2030)

6 GLOBAL AUTOMOTIVE POWER MANAGEMENT IC CONSUMPTION BY REGION

6.1 Global Automotive Power Management IC Consumption Estimates and Forecasts by Region: 2019 VS 2023 VS 2030

6.2 Global Automotive Power Management IC Consumption by Region (2019-2030)

6.2.1 Global Automotive Power Management IC Consumption by Region: 2019-2030

6.2.2 Global Automotive Power Management IC Forecasted Consumption by Region (2025-2030)

6.3 North America

6.3.1 North America Automotive Power Management IC Consumption Growth Rate by Country: 2019 VS 2023 VS 2030

6.3.2 North America Automotive Power Management IC Consumption by Country (2019-2030)

6.3.3 U.S.

6.3.4 Canada

6.4 Europe

6.4.1 Europe Automotive Power Management IC Consumption Growth Rate by Country: 2019 VS 2023 VS 2030

6.4.2 Europe Automotive Power Management IC Consumption by Country (2019-2030)

6.4.3 Germany

6.4.4 France

6.4.5 U.K.

6.4.6 Italy

6.4.7 Russia

6.5 Asia Pacific

6.5.1 Asia Pacific Automotive Power Management IC Consumption Growth Rate by Country: 2019 VS 2023 VS 2030

6.5.2 Asia Pacific Automotive Power Management IC Consumption by Country (2019-2030)

6.5.3 China

6.5.4 Japan

6.5.5 South Korea

6.5.6 China Taiwan

6.5.7 Southeast Asia

6.5.8 India

6.5.9 Australia

6.6 Latin America, Middle East & Africa

6.6.1 Latin America, Middle East & Africa Automotive Power Management IC Consumption Growth Rate by Country: 2019 VS 2023 VS 2030

6.6.2 Latin America, Middle East & Africa Automotive Power Management IC Consumption by Country (2019-2030)

6.6.3 Mexico

6.6.4 Brazil

6.6.5 Turkey

6.6.5 GCC Countries

7 SEGMENT BY TYPE

7.1 Global Automotive Power Management IC Production by Type (2019-2030)

7.1.1 Global Automotive Power Management IC Production by Type (2019-2030) & (M Units)

7.1.2 Global Automotive Power Management IC Production Market Share by Type (2019-2030)

7.2 Global Automotive Power Management IC Production Value by Type (2019-2030)

7.2.1 Global Automotive Power Management IC Production Value by Type (2019-2030) & (US\$ Million)

7.2.2 Global Automotive Power Management IC Production Value Market Share by Type (2019-2030)

7.3 Global Automotive Power Management IC Price by Type (2019-2030)

8 SEGMENT BY APPLICATION

8.1 Global Automotive Power Management IC Production by Application (2019-2030)

8.1.1 Global Automotive Power Management IC Production by Application (2019-2030) & (M Units)

8.1.2 Global Automotive Power Management IC Production by Application (2019-2030) & (M Units)

8.2 Global Automotive Power Management IC Production Value by Application (2019-2030)

8.2.1 Global Automotive Power Management IC Production Value by Application (2019-2030) & (US\$ Million)

8.2.2 Global Automotive Power Management IC Production Value Market Share by

Application (2019-2030)

8.3 Global Automotive Power Management IC Price by Application (2019-2030)

9 VALUE CHAIN AND SALES CHANNELS ANALYSIS OF THE MARKET

9.1 Automotive Power Management IC Value Chain Analysis

9.1.1 Automotive Power Management IC Key Raw Materials

9.1.2 Raw Materials Key Suppliers

9.1.3 Automotive Power Management IC Production Mode & Process

9.2 Automotive Power Management IC Sales Channels Analysis

9.2.1 Direct Comparison with Distribution Share

9.2.2 Automotive Power Management IC Distributors

9.2.3 Automotive Power Management IC Customers

10 GLOBAL AUTOMOTIVE POWER MANAGEMENT IC ANALYZING MARKET DYNAMICS

10.1 Automotive Power Management IC Industry Trends

10.2 Automotive Power Management IC Industry Drivers

10.3 Automotive Power Management IC Industry Opportunities and Challenges

10.4 Automotive Power Management IC Industry Restraints

11 REPORT CONCLUSION

12 DISCLAIMER

I would like to order

Product name: Automotive Power Management IC Industry Research Report 2024

Product link: <https://marketpublishers.com/r/A9740E7E8749EN.html>

Price: US\$ 2,950.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
