

# Corporate Performance Management (CPM) Software Industry Research Report 2023

<https://marketpublishers.com/r/CF3E3744117DEN.html>

Date: August 2023

Pages: 107

Price: US\$ 2,950.00 (Single User License)

ID: CF3E3744117DEN

## Abstracts

Corporate performance management, also called enterprise performance management (EPM), describes the practices that help companies plan and manage the financial success of their organization. Corporate performance management (CPM) software defines and manages the strategies that large companies need to monitor the performance of their business activities. CPM software is used to create and implement methodologies and processes, allowing corporations to track key performance indicators (KPIs) relative to corporate business objectives. This type of software is implemented across the corporation and is used by managers and executives responsible for improving the business performance of the company. In some cases, CPM software may only be deployed by accounting departments to analyze financial performance.

CPM systems consolidate multiple types of business information (financial, operational, sales, etc.) across all the departments of a corporation. For this purpose, CPM needs to integrate with software products such as ERP systems, accounting software, CRM software, or supply chain & logistics software. Integration with governance, risk, and compliance software is also needed to manage risks that may impact business performance.

The Corporate Performance Management (CPM) Software market covers Cloud-based, On Premises. The typical players include Oracle, SAP, IBM, Anaplan, etc.

## Highlights

The global Corporate Performance Management (CPM) Software market is projected to reach US\$ million by 2029 from an estimated US\$ million in 2023, at a CAGR of %

during 2024 and 2029.

The Corporate Performance Management (CPM) Software market concentration is high. Oracle, SAP, Anaplan, IBM, insightsoftware, Workday, OneStream Software, Infor, Prophix, Planful (formerly Host Analytics) are some of the leading players in the global Corporate Performance Management (CPM) Software market. The top 5 players take about 45% of the market share.

America is the largest sales region of Corporate Performance Management (CPM) Software in the world. The total America market takes up about 52% of the global market, Europe follows with over 30%, Asia Pacific takes about 11%. North America is one of the lucrative regions of the market for Corporate Performance Management (CPM) Software. One of the key reasons supporting this market growth is the increased acceptance of advanced technologies among companies from this region.

Corporate Performance Management (CPM) Software is mainly used in the following Application groups: Small and Medium Enterprises (SMEs), Large Enterprises. And Large Enterprises are the most widely used group which took up about 63% of the global market. Besides, it is split into several types, such as On-premises and Cloud Based.

## Report Scope

This report aims to provide a comprehensive presentation of the global market for Corporate Performance Management (CPM) Software, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Corporate Performance Management (CPM) Software.

The Corporate Performance Management (CPM) Software market size, estimations, and forecasts are provided in terms of and revenue (\$ millions), considering 2022 as the base year, with history and forecast data for the period from 2018 to 2029. This report segments the global Corporate Performance Management (CPM) Software market comprehensively. Regional market sizes, concerning products by types, by application, and by players, are also provided. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

For a more in-depth understanding of the market, the report provides profiles of the

competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Corporate Performance Management (CPM) Software companies, new entrants, and industry chain related companies in this market with information on the revenues for the overall market and the sub-segments across the different segments, by company, product type, application, and regions.

### Key Companies & Market Share Insights

In this section, the readers will gain an understanding of the key players competing. This report has studied the key growth strategies, such as innovative trends and developments, intensification of product portfolio, mergers and acquisitions, collaborations, new product innovation, and geographical expansion, undertaken by these participants to maintain their presence. Apart from business strategies, the study includes current developments and key financials. The readers will also get access to the data related to global revenue by companies for the period 2017-2022. This all-inclusive report will certainly serve the clients to stay updated and make effective decisions in their businesses. Some of the prominent players reviewed in the research report include:

Oracle

SAP

IBM

Anaplan

Infor

Workday

Planful (formerly Host Analytics)

Unit4

Epicor Software

Wolters Kluwer (CCH Tagetik)

BOARD International

Prophix

OneStream Software

Insightsoftware

Vena Solutions

Solver

Kepion

Workiva

LucaNet

Jedox

Ideagen

Calumo

Centage

## Product Type Insights

Global markets are presented by Corporate Performance Management (CPM) Software type, along with growth forecasts through 2029. Estimates on revenue are based on the price in the supply chain at which the Corporate Performance Management (CPM) Software are procured by the companies.

This report has studied every segment and provided the market size using historical data. They have also talked about the growth opportunities that the segment may pose in the future. This study bestows revenue data by type, and during the historical period

(2018-2023) and forecast period (2024-2029).

## Corporate Performance Management (CPM) Software segment by Type

On-Premises

Cloud Based

## Application Insights

This report has provided the market size (revenue data) by application, during the historical period (2018-2023) and forecast period (2024-2029).

This report also outlines the market trends of each segment and consumer behaviors impacting the Corporate Performance Management (CPM) Software market and what implications these may have on the industry's future. This report can help to understand the relevant market and consumer trends that are driving the Corporate Performance Management (CPM) Software market.

## Corporate Performance Management (CPM) Software Segment by Application

Large Enterprises

Medium Enterprises

Small Enterprises

## Regional Outlook

This section of the report provides key insights regarding various regions and the key players operating in each region. Economic, social, environmental, technological, and political factors have been taken into consideration while assessing the growth of the particular region/country. The readers will also get their hands on the revenue data of each region and country for the period 2018-2029.

The market has been segmented into various major geographies, including North America, Europe, Asia-Pacific, South America, Middle East & Africa. Detailed analysis

of major countries such as the USA, Germany, the U.K., Italy, France, China, Japan, South Korea, Southeast Asia, and India will be covered within the regional segment. For market estimates, data are going to be provided for 2022 because of the base year, with estimates for 2023 and forecast revenue for 2029.

## North America

United States

Canada

## Europe

Germany

France

UK

Italy

Russia

Nordic Countries

Rest of Europe

## Asia-Pacific

China

Japan

South Korea

Southeast Asia

India

Australia

Rest of Asia

Latin America

Mexico

Brazil

Rest of Latin America

Middle East & Africa

Turkey

Saudi Arabia

UAE

Rest of MEA

## Key Drivers & Barriers

High-impact rendering factors and drivers have been studied in this report to aid the readers to understand the general development. Moreover, the report includes restraints and challenges that may act as stumbling blocks on the way of the players. This will assist the users to be attentive and make informed decisions related to business. Specialists have also laid their focus on the upcoming business prospects.

## COVID-19 and Russia-Ukraine War Influence Analysis

The readers in the section will understand how the Corporate Performance Management (CPM) Software market scenario changed across the globe during the pandemic, post-pandemic and Russia-Ukraine War. The study is done keeping in view the changes in aspects such as demand, consumption, transportation, consumer behavior, supply chain management. The industry experts have also highlighted the key factors that will help create opportunities for players and stabilize the overall industry in

the years to come.

### Reasons to Buy This Report

This report will help the readers to understand the competition within the industries and strategies for the competitive environment to enhance the potential profit. The report also focuses on the competitive landscape of the global Corporate Performance Management (CPM) Software market, and introduces in detail the market share, industry ranking, competitor ecosystem, market performance, new product development, operation situation, expansion, and acquisition. etc. of the main players, which helps the readers to identify the main competitors and deeply understand the competition pattern of the market.

This report will help stakeholders to understand the global industry status and trends of Corporate Performance Management (CPM) Software and provides them with information on key market drivers, restraints, challenges, and opportunities.

This report will help stakeholders to understand competitors better and gain more insights to strengthen their position in their businesses. The competitive landscape section includes the market share and rank (in volume and value), competitor ecosystem, new product development, expansion, and acquisition.

This report stays updated with novel technology integration, features, and the latest developments in the market

This report helps stakeholders to understand the COVID-19 and Russia-Ukraine War Influence on the Corporate Performance Management (CPM) Software industry.

This report helps stakeholders to gain insights into which regions to target globally

This report helps stakeholders to gain insights into the end-user perception concerning the adoption of Corporate Performance Management (CPM) Software.

This report helps stakeholders to identify some of the key players in the market and understand their valuable contribution.

### Core Chapters

Chapter 1: Research objectives, research methods, data sources, data cross-validation;

Chapter 2: Introduces the report scope of the report, executive summary of different market segments (product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the market and its likely evolution in the short to mid-term, and long term.

Chapter 3: Provides the analysis of various market segments product types, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 4: Provides the analysis of various market segments application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 5: Introduces executive summary of global market size, regional market size, this section also introduces the market dynamics, latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by companies in the industry, and the analysis of relevant policies in the industry.

Chapter 6: Detailed analysis of Corporate Performance Management (CPM) Software companies' competitive landscape, revenue market share, latest development plan, merger, and acquisition information, etc.

Chapter 7, 8, 9, 10, 11: North America, Europe, Asia Pacific, Latin America, Middle East and Africa segment by country. It provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and capacity of each country in the world.

Chapter 12: Provides profiles of key players, introducing the basic situation of the main companies in the market in detail, including product sales, revenue, price, gross margin, product introduction, recent development, etc.

Chapter 13: The main points and conclusions of the report.

## Frequently Asked Questions

What factors will challenge the Product Name market growth?

Which end-use segment will expand at the fastest CAGR in the Product Name market?

Which are the emerging players in the Product Name market?

How concentrated is the Product Name market?

Which factors are positively contributing to the Product Name market growth?

Which are the novel product innovations in the Product Name market?

Which product segment will emerge as the most lucrative in the Product Name market?

Which factors are increasing the competition in the Product Name market?

Which are the strategic measures taken by the Product Name industry players?

Which region will witness inactive growth during the forecast period?

What key trends are likely to emerge in the Product Name market in the coming years?
