## Abstracts

An electronic instrument refers to a musical instrument in which a musician triggers an electronic signal by specific means, using electronic synthesis or sampling techniques to make sound through an electroacoustic device, such as an electronic piano, an electric piano, an electronic synthesizer, an electronic drum, etc.

### Highlights

The global Electronic Musical Instruments market is projected to reach US\$ million by 2029 from an estimated US\$ million in 2023, at a CAGR of % during 2024 and 2029.

With the continuous expansion of the domestic market, local enterprises are becoming more and more mature. Imports are decreasing, and exports are increasing. For the future sales model of electronic instruments in the domestic market, the status quo is basically maintained. In 2017, the number of electronic music users in China reached 290 million, an increase of 45.2 percent over the same period last year; in 2018, it reached 360 million, an increase of 25.2 percent over the same period last year; and by 2020, the number of electronic music users in China is expected to reach 580 million. The electronic music market has just started in China, and the population dividend in China is huge. With the cultivation of users by audio manufacturers, the scale of electronic music users in China will continue to grow. Chinese government has formulated a series of plans to promote music art education and mass cultural entertainment, to promote the prosperity of the music culture market. In the case of good policies, China's cultural and recreational consumer groups continue to expand. With the continuous improvement of the income level of residents in China, the proportion of basic consumption expenditure such as food, clothing, housing and transportation is gradually reduced, and the growth rate of entertainment consumption

expenditure is relatively fast, and the proportion is gradually rising. Under the promotion of favorable policy and rising national entertainment consumption, China's electronic instrument industry ushered in development opportunities. Under the background of foreign brands entering China, the competition of electronic instrument market is becoming more and more fierce, and the local electronic instrument industry will face greater challenges.

## Report Scope

This report aims to provide a comprehensive presentation of the global market for Electronic Musical Instruments, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Electronic Musical Instruments.

The Electronic Musical Instruments market size, estimations, and forecasts are provided in terms of sales volume (K Units) and revenue (\$ millions), considering 2022 as the base year, with history and forecast data for the period from 2018 to 2029. This report segments the global Electronic Musical Instruments market comprehensively. Regional market sizes, concerning products by types, by application, and by players, are also provided. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Electronic Musical Instruments manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, sales volume, and average price for the overall market and the sub-segments across the different segments, by company, product type, application, and regions.

## Key Companies & Market Share Insights

In this section, the readers will gain an understanding of the key players competing. This report has studied the key growth strategies, such as innovative trends and developments, intensification of product portfolio, mergers and acquisitions, collaborations, new product innovation, and geographical expansion, undertaken by these participants to maintain their presence. Apart from business strategies, the study

includes current developments and key financials. The readers will also get access to the data related to global revenue, price, and sales by manufacturers for the period 2018-2023. This all-inclusive report will certainly serve the clients to stay updated and make effective decisions in their businesses. Some of the prominent players reviewed in the research report include:

Yamaha

Guangzhou Pearl River Piano Group Co., Ltd.

Ringway Tech. (Jiangsu) Co., Ltd.

Beijing Hsinghai Piano Group Limited

Shanghai Huaxin Musical Instrument Co., Ltd.

Gibson Brands

Medeli Electronics (Shanghai) Co., Ltd.

Roland

Wuhan Eleca Electronics Co., Ltd.

KORG

## Product Type Insights

Global markets are presented by Electronic Musical Instruments type, along with growth forecasts through 2029. Estimates on sales and revenue are based on the price in the supply chain at which the Electronic Musical Instruments are procured by the manufacturers.

This report has studied every segment and provided the market size using historical data. They have also talked about the growth opportunities that the segment may pose in the future. This study bestows sales and revenue data by type, and during the historical period (2018-2023) and forecast period (2024-2029).

## Electronic Musical Instruments segment by Type

Electric Piano

Electronic Organ

Electric Guitar/Electric Bass

Electronic Drum

Electronic Synthesizer

Others

## Application Insights

This report has provided the market size (sales and revenue data) by application, during the historical period (2018-2023) and forecast period (2024-2029).

This report also outlines the market trends of each segment and consumer behaviors impacting the Electronic Musical Instruments market and what implications these may have on the industry's future. This report can help to understand the relevant market and consumer trends that are driving the Electronic Musical Instruments market.

## Electronic Musical Instruments segment by Application

Band Use

Home Use

Teaching Use

Others

## Regional Outlook

This section of the report provides key insights regarding various regions and the key

players operating in each region. Economic, social, environmental, technological, and political factors have been taken into consideration while assessing the growth of the particular region/country. The readers will also get their hands on the revenue and sales data of each region and country for the period 2018-2029.

The market has been segmented into various major geographies, including North America, Europe, Asia-Pacific, South America, Middle East & Africa. Detailed analysis of major countries such as the USA, Germany, the U.K., Italy, France, China, Japan, South Korea, Southeast Asia, and India will be covered within the regional segment. For market estimates, data are going to be provided for 2021 because of the base year, with estimates for 2023 and forecast revenue for 2029.

## North America

United States

Canada

## Europe

Germany

France

U.K.

Italy

Russia

## Asia-Pacific

China

Japan

South Korea

India

Australia

China Taiwan

Indonesia

Thailand

Malaysia

Latin America

Mexico

Brazil

Argentina

Middle East & Africa

Turkey

Saudi Arabia

UAE

## Key Drivers & Barriers

High-impact rendering factors and drivers have been studied in this report to aid the readers to understand the general development. Moreover, the report includes restraints and challenges that may act as stumbling blocks on the way of the players. This will assist the users to be attentive and make informed decisions related to business. Specialists have also laid their focus on the upcoming business prospects.

## COVID-19 and Russia-Ukraine War Influence Analysis

The readers in the section will understand how the Electronic Musical Instruments

market scenario changed across the globe during the pandemic, post-pandemic and Russia-Ukraine War. The study is done keeping in view the changes in aspects such as demand, consumption, transportation, consumer behavior, supply chain management, export and import, and production. The industry experts have also highlighted the key factors that will help create opportunities for players and stabilize the overall industry in the years to come.

### Reasons to Buy This Report

This report will help the readers to understand the competition within the industries and strategies for the competitive environment to enhance the potential profit. The report also focuses on the competitive landscape of the global Electronic Musical Instruments market, and introduces in detail the market share, industry ranking, competitor ecosystem, market performance, new product development, operation situation, expansion, and acquisition. etc. of the main players, which helps the readers to identify the main competitors and deeply understand the competition pattern of the market.

This report will help stakeholders to understand the global industry status and trends of Electronic Musical Instruments and provides them with information on key market drivers, restraints, challenges, and opportunities.

This report will help stakeholders to understand competitors better and gain more insights to strengthen their position in their businesses. The competitive landscape section includes the market share and rank (in volume and value), competitor ecosystem, new product development, expansion, and acquisition.

This report stays updated with novel technology integration, features, and the latest developments in the market

This report helps stakeholders to understand the COVID-19 and Russia-Ukraine War Influence on the Electronic Musical Instruments industry.

This report helps stakeholders to gain insights into which regions to target globally

This report helps stakeholders to gain insights into the end-user perception concerning the adoption of Electronic Musical Instruments.

This report helps stakeholders to identify some of the key players in the market and understand their valuable contribution.

## Core Chapters

Chapter 1: Research objectives, research methods, data sources, data cross-validation;

Chapter 2: Introduces the report scope of the report, executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the market and its likely evolution in the short to mid-term, and long term.

Chapter 3: Detailed analysis of Electronic Musical Instruments manufacturers competitive landscape, price, production and value market share, latest development plan, merger, and acquisition information, etc.

Chapter 4: Provides profiles of key players, introducing the basic situation of the main companies in the market in detail, including product production/output, value, price, gross margin, product introduction, recent development, etc.

Chapter 5: Production/output, value of Electronic Musical Instruments by region/country. It provides a quantitative analysis of the market size and development potential of each region in the next six years.

Chapter 6: Consumption of Electronic Musical Instruments in regional level and country level. It provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and production of each country in the world.

Chapter 7: Provides the analysis of various market segments by type, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 8: Provides the analysis of various market segments by application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 9: Analysis of industrial chain, including the upstream and downstream of the industry.

Chapter 10: Introduces the market dynamics, latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 11: The main points and conclusions of the report.
