Abstracts

Basketball shoes are very specialized form of footwear that has been designed specifically for an intense sport. Basketball players are constantly starting and stopping, running, jumping, and quickly changing directions, and they have to have shoes that can keep up with those strenuous demands. Good basketball shoes will offer shock absorption, foot support, durability, and ankle stability, all while remaining extremely flexible and allowing the feet to breathe.

With constant jumping, starting and stopping, basketball shoes are designed to act as shock absorbers and provide ankle stability with the flexibility to allow players to move laterally. As such, basketball shoes are much bulkier than running shoes.
