Abstracts

Electronic Expansion Valves (EEVs) are mainly used in refrigeration, air conditioning and heat pump systems to realize automatic adjustment of refrigerant flow, so that the system can operate under the best conditions, and achieve rapid cooling or heating, precise temperature control and energy saving. The electronic expansion valve is composed of a controller, an actuator and a sensor. Since the temperature sensing part of the electronic expansion valve is a thermocouple or a thermal resistance, it can accurately reflect the change of heat at low temperatures and provide more accurate flow adjustment.

According to APO Research, The global Electronic Expansion Valves (EEVs) market is projected to grow from US$ million in 2024 to US$ million by 2030, at a Compound Annual Growth Rate (CAGR) of % during the forecast period.

The major players in global Electronic Expansion Valves (EEVs) market include SANHUA, Fujikoki, DunAn, etc. The top 3 players occupy about 95% shares of the global market. China and Europe are main markets, they occupy about 80% of the global market. Electromagnetic EEVs is the main type, with a share about 90%. Home Inverter Air Conditioner is the main application, which holds a share about 90%.

In terms of production side, this report researches the Electronic Expansion Valves (EEVs) production, growth rate, market share by manufacturers and by region (region level and country level), from 2019 to 2024, and forecast to 2030.

In terms of consumption side, this report focuses on the sales of Electronic Expansion Valves (EEVs) by region (region level and country level), by company, by type and by

+44 20 8123 2220

application. from 2019 to 2024 and forecast to 2030.

This report presents an overview of global market for Electronic Expansion Valves (EEVs), capacity, output, revenue and price. Analyses of the global market trends, with historic market revenue or sales data for 2019 - 2023, estimates for 2024, and projections of CAGR through 2030.

This report researches the key producers of Electronic Expansion Valves (EEVs), also provides the consumption of main regions and countries. Of the upcoming market potential for Electronic Expansion Valves (EEVs), and key regions or countries of focus to forecast this market into various segments and sub-segments. Country specific data and market value analysis for the U.S., Canada, Mexico, Brazil, China, Japan, South Korea, Southeast Asia, India, Germany, the U.K., Italy, Middle East, Africa, and Other Countries.

This report focuses on the Electronic Expansion Valves (EEVs) sales, revenue, market share and industry ranking of main manufacturers, data from 2019 to 2024. Identification of the major stakeholders in the global Electronic Expansion Valves (EEVs) market, and analysis of their competitive landscape and market positioning based on recent developments and segmental revenues. This report will help stakeholders to understand the competitive landscape and gain more insights and position their businesses and market strategies in a better way.

This report analyzes the segments data by type and by application, sales, revenue, and price, from 2019 to 2030. Evaluation and forecast the market size for Electronic Expansion Valves (EEVs) sales, projected growth trends, production technology, application and end-user industry.

Descriptive company profiles of the major global players, including Fujikoki, SANHUA, DunAn, Saginomiya (Danfoss Poland), Danfoss, Parker, Emerson and Castel, etc.

Electronic Expansion Valves (EEVs) segment by Company

Fujikoki

SANHUA

DunAn

Study Objectives

1. To analyze and research the global status and future forecast, involving, production, value, consumption, growth rate (CAGR), market share, historical and forecast.

2. To present the key manufacturers, capacity, production, revenue, market share, and Recent Developments.

3. To split the breakdown data by regions, type, manufacturers, and Application.

4. To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints, and risks.

5. To identify significant trends, drivers, influence factors in global and regions.

6. To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

Reasons to Buy This Report

1. This report will help the readers to understand the competition within the industries and strategies for the competitive environment to enhance the potential profit. The report also focuses on the competitive landscape of the global Electronic Expansion Valves (EEVs) market, and introduces in detail the market share, industry ranking, competitor ecosystem, market performance, new product development, operation situation, expansion, and acquisition. etc. of the main players, which helps the readers to identify the main competitors and deeply understand the competition pattern of the market.

2. This report will help stakeholders to understand the global industry status and trends of Electronic Expansion Valves (EEVs) and provides them with information on key market drivers, restraints, challenges, and opportunities.

3. This report will help stakeholders to understand competitors better and gain more insights to strengthen their position in their businesses. The competitive landscape section includes the market share and rank (in volume and value), competitor ecosystem, new product development, expansion, and acquisition.

4. This report stays updated with novel technology integration, features, and the latest developments in the market.

5. This report helps stakeholders to gain insights into which regions to target globally.

6. This report helps stakeholders to gain insights into the end-user perception concerning the adoption of Electronic Expansion Valves (EEVs).

7. This report helps stakeholders to identify some of the key players in the market and understand their valuable contribution.

Chapter Outline

Chapter 1: Provides an overview of the Electronic Expansion Valves (EEVs) market, including product definition, global market growth prospects, production value, capacity, and average price forecasts (2019-2030).

Chapter 2: Analysis key trends, drivers, challenges, and opportunities within the global Electronic Expansion Valves (EEVs) industry.

Chapter 3: Detailed analysis of Electronic Expansion Valves (EEVs) market competition landscape. Including Electronic Expansion Valves (EEVs) manufacturers' output value, output and average price from 2019 to 2024, as well as competition analysis indicators such as origin, product type, application, merger and acquisition information, etc.

Chapter 4: Provides the analysis of various market segments by type, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 5: Provides the analysis of various market segments by application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 6: Provides profiles of key players, introducing the basic situation of the main

info@marketpublishers.com

companies in the market in detail, including product production/output, value, price, gross margin, product introduction, recent development, etc.

Chapter 7: Production/Production Value of Electronic Expansion Valves (EEVs) by region. It provides a quantitative analysis of the market size and development potential of each region in the next six years.

Chapter 8: Consumption of Electronic Expansion Valves (EEVs) in regional level and country level. It provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and production of each country in the world.

Chapter 9: Analysis of industrial chain, including the upstream and downstream of the industry.

Chapter 10: Concluding Insights of the report.
