Abstracts

The functional flours market is directly influenced by the growing processed food industry. The rise in consumption of bakery and R.T.E products in developing economies is driving the market. Busy work schedules demand on-the-go consumption and convenient meals. In addition to this, health and wellness consciousness among consumers, and rise in income levels have boosted sales of functional flours as base ingredients and thickening agents. Food safety legislations and health hazards of gluten (for gluten-sensitive individuals) have helped in educating consumers about the benefits offered by functional flours in food products. In light of the benefits offered by different functional flours, and the increasing demand for bakery and R.T.E. products, governments of various countries are promoting the functional flours industry, assisting the manufacturers and suppliers of this industry.

According to APO Research, The global Functional Flour market was estimated at US\$ million in 2023 and is projected to reach a revised size of US\$ million by 2030, witnessing a CAGR of xx% during the forecast period 2024-2030.

In Spain, Functional Flour key players include Harinera del Mar, Oromas, Harimsa, Haricaman, etc. Global top four manufacturers hold a share over 55%.

In terms of product, Specialty Flour is the largest segment, with a share about 75%. And in terms of application, the largest application is Bakery, followed by R.T.E Products, Soups and Sauces, etc.
