## Abstracts

This report studies the Online Accounting Software market, online accounting systems are specifically designed to be used through the Internet, rather than being installed locally onto company computers. This reduces information technology requirements like server hardware, backups and maintenance and shifts the expenditure from being a large up-front capital cost to a much smaller, but ongoing, monthly or annual fee.

According to APO Research, The global Online Accounting Software market is projected to grow from US\$ million in 2024 to US\$ million by 2030, at a Compound Annual Growth Rate (CAGR) of % during the forecast period.

Europe is the main market for online accounting software, accounting for about 20%.

Xero, Intuit, Microsoft, Sage, and Epicor are the major players, with the top three accounting for about 25%.
