Abstracts

Procure to pay (purchase to pay or P2P) is the process of obtaining and managing the raw materials needed for manufacturing a product or providing a service. It involves the transactional flow of data that is sent to a supplier as well as the data that surrounds the fulfillment of the actual order and payment for the product or service, the transfer of specified key procurement activities relating to sourcing and supplier management to a third party — perhaps to reduce overall costs or maybe to tighten the company's focus on its core competencies. Procurement categorisation and vendor management of indirect materials and services (commonly referred to as Indirect procurement) are typically the most popular outsourced activity.

According to APO Research, The global Procurement Outsourcing market is projected to grow from US$ million in 2024 to US$ million by 2030, at a Compound Annual Growth Rate (CAGR) of % during the forecast period.

Global Procurement Outsourcing main players are IBM, Accenture, GEP, Infosys, etc. Global top four manufacturers hold a share over 60%. North America is the largest market, with a share nearly 45%.
