Abstracts

A roof window is an outward opening window that is incorporated as part of the design of a roof. Often confused with a skylight, a roof window differs in a few basic ways. A roof window is often a good option when there is a desire to allow both light and fresh air into the space.

A roof window tends to be larger than a skylight, making it possible to enjoy a wider view of the sky overhead. In addition, skylights are usually stationary; that is, they cannot be opened and closed. With some designs of a roof window, it is possible to retract a portion of the glazed panes to allow in fresh air as well as enjoy the natural light.

According to APO Research, The global Roof Windows market was estimated at US\$ million in 2023 and is projected to reach a revised size of US\$ million by 2030, witnessing a CAGR of xx% during the forecast period 2024-2030.

Global Roof Windows key players include Velux, Fakro, Roto, etc. Global top three manufacturers hold a share over 80%.

Western Europe is the largest market, with a share over 50%, followed by Eastern Europe, and North America, both have a share about 40 percent.

In terms of product, Wood is the largest segment, with a share over 60%. And in terms of application, the largest application is Residential, followed by Commercial.
