Abstracts

The report is about Spine Surgery Products market. Spinal fusion products are used in spinal fusion surgery. The products are involved in removing the damaged disc and replacing it with any fusion products. Non-fusion products are used during spine surgery, which are implanted to treat spine conditions. This also allows the patient to retain its movement and flexibility. The non-fusion products are becoming the treatment of choice, especially for the younger, more active patient. Increase in number of spine surgeries, rise in use of bone grafts and bone morphogenetic proteins in spinal fusion surgery, growing number of spinal surgeries using electrical stimulation devices such as inductive coupling devices, captive coupling devices and other implants drives the market growth rate by 2025.

According to APO Research, The global Spine Surgery Products market was estimated at US\$ million in 2023 and is projected to reach a revised size of US\$ million by 2030, witnessing a CAGR of xx% during the forecast period 2024-2030.

In the United States, Medtronic, DePuy Synthes, Stryker, Nuvasive, and Globus Medical are the major vendors of spinal surgery products. The top three accounted for about 35% of the total market.
