## Abstracts

A micro screw is a kind of small fastener, diameter size range from 0.5mm-2.5mm (M 0.5-M2.5), made of high grade metal and is widely used in various industries including automotive, consumer electronics, electrical, mechanical, medical, industrial and more.

### Highlights

The global Micro Screws market is projected to reach US\$ million by 2028 from an estimated US\$ million in 2022, at a CAGR of % during 2024 and 2029.

In 2020, by type, M1.9-M1.0 accounted for a major share of 64.06% the global Micro Screws market. In Micro Screws market, the Consumer Electronics holds an important share in terms of Application, about 62.06% in 2020.

### Report Scope

This report aims to provide a comprehensive presentation of the global market for Micro Screws, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Micro Screws.

The Micro Screws market size, estimations, and forecasts are provided in terms of output/shipments (M Unit) and revenue (\$ millions), considering 2022 as the base year, with history and forecast data for the period from 2018 to 2029. This report segments the global Micro Screws market comprehensively. Regional market sizes, concerning products by types, by application, and by players, are also provided. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Micro Screws manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, production, and average price for the overall market and the sub-segments across the different segments, by company, product type, application, and regions.

### Key Companies & Market Share Insights

In this section, the readers will gain an understanding of the key players competing. This report has studied the key growth strategies, such as innovative trends and developments, intensification of product portfolio, mergers and acquisitions, collaborations, new product innovation, and geographical expansion, undertaken by these participants to maintain their presence. Apart from business strategies, the study includes current developments and key financials. The readers will also get access to the data related to global revenue, price, and sales by manufacturers for the period 2017-2022. This all-inclusive report will certainly serve the clients to stay updated and make effective decisions in their businesses. Some of the prominent players reviewed in the research report include:

Matsumoto Industry

EJOT

J.I. Morris

MIZUKI

Shi Shi Tong Metal Products

Tokai Buhin Kogyo

Nitto Seiko

STANLEY Engineered Fastening

Nabeya Bi-tech Kaisha

PennEngineering

SAIDA Manufacturing

PSM International

Unisteel

Chu Wu Industrial

Sanei

## Product Type Insights

Global markets are presented by Micro Screws type, along with growth forecasts through 2029. Estimates on production and value are based on the price in the supply chain at which the Micro Screws are procured by the manufacturers.

This report has studied every segment and provided the market size using historical data. They have also talked about the growth opportunities that the segment may pose in the future. This study bestows production and revenue data by type, and during the historical period (2018-2023) and forecast period (2024-2029).

## Micro Screws segment by Type

M2.5-M2.0

M1.9-M1.0
