

Pellet Heating Stoves Industry Research Report 2023

<https://marketpublishers.com/r/PD3880D2CD09EN.html>

Date: August 2023

Pages: 101

Price: US\$ 2,950.00 (Single User License)

ID: PD3880D2CD09EN

Abstracts

A pellet stove is a stove that burns compressed wood or biomass pellets to create a source of heat for residential and sometimes industrial spaces. By steadily feeding fuel from a storage container into a burn pot area, it produces a constant flame that requires little to no physical adjustments.

Highlights

The global Pellet Heating Stoves market is projected to reach US\$ million by 2028 from an estimated US\$ million in 2022, at a CAGR of % during 2024 and 2029.

For the major players of pellet heating stoves, MCZ was the first place in the ranking in 2019, followed by EDILKAMIN, Ravelli, and England's Stove Works, Inc. The Top 5 players accounted for about 35% of the Global pellet heating stoves revenue market share in 2019.

The revenue market for pellet heating stoves was divided into five geographic regions. Europe occupied the largest revenue market share with nearly 80% in 2019, leading countries such as Italy, France and Germany, etc.

On the basis of product type, the Air Stove type segment is projected to account for the largest sales volume market share; this segment was estimated to account for about 75% share in 2019 in terms of volume.

In the applications, Residential segment is the dominated application, is estimated to account for the highest market share of 93% in 2019.

Report Scope

This report aims to provide a comprehensive presentation of the global market for Pellet Heating Stoves, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Pellet Heating Stoves.

The Pellet Heating Stoves market size, estimations, and forecasts are provided in terms of output/shipments (Units) and revenue (\$ millions), considering 2022 as the base year, with history and forecast data for the period from 2018 to 2029. This report segments the global Pellet Heating Stoves market comprehensively. Regional market sizes, concerning products by types, by application, and by players, are also provided. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Pellet Heating Stoves manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, production, and average price for the overall market and the sub-segments across the different segments, by company, product type, application, and regions.

Key Companies & Market Share Insights

In this section, the readers will gain an understanding of the key players competing. This report has studied the key growth strategies, such as innovative trends and developments, intensification of product portfolio, mergers and acquisitions, collaborations, new product innovation, and geographical expansion, undertaken by these participants to maintain their presence. Apart from business strategies, the study includes current developments and key financials. The readers will also get access to the data related to global revenue, price, and sales by manufacturers for the period 2017-2022. This all-inclusive report will certainly serve the clients to stay updated and make effective decisions in their businesses. Some of the prominent players reviewed in the research report include:

MCZ

EDILKAMIN

Ravelli

England's Stove Works, Inc.

Hearth & Home Technologies

Invicta

Sherwood Industries

PALAZZETTI

RIKA

THERMOROSSI

Karmek One

ECOFOREST

Piazzetta

ExtraStove

olimpia Splendid

US Stove

Haas + Sohn

Product Type Insights

Global markets are presented by Pellet Heating Stoves type, along with growth forecasts through 2029. Estimates on production and value are based on the price in the supply chain at which the Pellet Heating Stoves are procured by the manufacturers.

This report has studied every segment and provided the market size using historical

data. They have also talked about the growth opportunities that the segment may pose in the future. This study bestows production and revenue data by type, and during the historical period (2018-2023) and forecast period (2024-2029).
