Abstracts

The tattoo needles are having a specific design with many sharp ends attached to a bar. These ends were called the sharps, which may vary from three to nine or more based on the image to be imprinted on to the skin, at the desecration of the artist. The tattoo needles are used to penetrate human skin to supply the ink on to it. The liner needles on the other hand are used to apply ink to the outline to form the tattoo. It was just a single needle in the application until a couple of decades ago; however, now application of single needle is very rare and at a minimum, three needles are utilized normally to form the outline.

According to APO Research, the global Tattoo Needles market was valued at US\$ million in 2023 and is anticipated to reach US\$ million by 2030, witnessing a CAGR of xx% during the forecast period 2024-2030.
